## CHAPTER 1. NECESSITY OF ENVIRONMENTAL COMPLIANCE PROGRAMS AND A PRIMER ON ENVIRONMENTAL LAWS AND REGULATIONS

### I. INTRODUCTION

| § 1:1 | Overview of expansion of “environmental law” |
| § 1:2 | Objectives of environmental compliance programs |
| § 1:3 | General considerations to minimize liability |
| § 1:4 | —Judicial supervision and EPA enforcement |
| § 1:5 | —Fines and penalties |
| § 1:6 | EPA policy to promote environmental self-assessments |
| § 1:7 | Furtherance of environmental goals and avoidance of punitive aspects of sentencing guidelines |
| § 1:8 | Duty to provide informed bases for reports required under law |
| § 1:9 | Mitigating latent exposures |
| § 1:10 | Assuring accuracy of public financial disclosures |
| § 1:11 | Profitability of pollution prevention and waste reduction |
| § 1:12 | Environmental compliance and business flexibility |
| § 1:13 | Shareholder issues |
| § 1:14 | Potential responsibilities of board of directors |
| § 1:15 | Identification of positive public relations opportunities |
| § 1:16 | Government procurement opportunities |
| § 1:17 | Customer requirements and ISO 14000 verifications |
| § 1:18 | Addressing employee whistle blowers |

### II. A PRIMER ON SUBSTANTIVE ENVIRONMENTAL REQUIREMENTS

| § 1:19 | Introduction; Delegation of federal programs to the states |
| § 1:20 | Liability issues common to all or most environmental laws |
| § 1:21 | Common issues: Liable entities and individuals |
| § 1:22 | —Persons in charge |
| § 1:23 | —Officers and directors; the Responsible Corporate Officer Doctrine |
III. CERCLA AND RCRA: LIABLE ENTITIES AND INDIVIDUALS

§ 1:26 CERCLA and RCRA: Liable entities and individuals
§ 1:27 —CERCLA and RCRA terms
§ 1:28 —“Persons” and “owners and operators”
§ 1:29 —Liability based upon financial control
§ 1:30 —Dissolved corporations and successors
§ 1:31 —Officers and directors
§ 1:32 —Parent corporations and shareholders
§ 1:33 —Lenders and secured creditors as “owners and operators”
§ 1:34 —Trustees as “owners and operators”
§ 1:35 “Persons” and “owners and operators”—Innocent landowners and bona fide prospective purchasers
§ 1:36 Other special defenses to CERCLA liability
§ 1:37 —Overview of EPA rule defining “all appropriate inquiries”
§ 1:38 —The standards for “all appropriate inquiries” (AAI)
§ 1:39 —Implications for environmental due diligence

IV. STORAGE AND USE OF HAZARDOUS OR TOXIC MATERIALS

§ 1:40 Compliance and reporting requirements
§ 1:41 SARA Title III (Emergency Planning and Community Right-To-Know Act of 1986)
§ 1:42 SARA Subtitle A (state and local emergency planning)—Emergency planning
§ 1:43 —Applicability
§ 1:44 —Content of report
§ 1:45 —Emergency notification of unplanned releases
§ 1:46 —Content of report
§ 1:47 SARA Subtitle B (reporting requirements)—Chemical inventory reporting
§ 1:48 —Content of report
§ 1:49 —Toxic chemical release reporting
§ 1:50 — —Applicability
§ 1:51 — —Content of report
§ 1:52 — —Trade secrets
§ 1:53 Toxic Substances Control Act (TSCA)
§ 1:54 —Toxic Substances Control Act Inventory
§ 1:55 —Premanufacture notices (PMNs)
§ 1:56 —Special issues for polymers
§ 1:57 —Significant New Use Rules (SNURs)
§ 1:58 —Regulation of substances under Section 6
§ 1:59 —Reporting and retention of information under Section 8
§ 1:60 —Section 8(a)
§ 1:61 —Section 8(e)
§ 1:62 —Section 8(d)
§ 1:63 —Testing requirements
§ 1:64 —TSCA record retention
§ 1:65 —Polychlorinated biphenyl (PCB) regulation
§ 1:66 —Asbestos regulation
§ 1:67 —Lead regulation
§ 1:68 —Imports and exports of chemicals
§ 1:69 Material storage and handling processes regulation—Aboveground storage tanks
§ 1:70 Raw material storage and handling processes regulation—Underground storage tanks (USTs)
§ 1:71 Building renovation regulation
§ 1:72 Federal Insecticide, Fungicide, and Rodenticide Act

V. AIR POLLUTION
§ 1:73 The Clean Air Act
§ 1:74 Clean Air Act definitions and laws
§ 1:75 —Ambient air quality standards
§ 1:76 Regulating greenhouse gases and climate change
§ 1:77 Clean Air Act definitions and laws—State implementation plans
§ 1:78 —Reasonably available control technology
§ 1:79 Air toxics; regulation of hazardous air pollutants
§ 1:80 Operating permits under Title V
§ 1:81 New or modified activities—Permitting requirements for facilities
§ 1:82 —New source performance standards
§ 1:83 Mobile source emissions

VI. WATER POLLUTION
§ 1:84 Clean Water Act—Definitions and laws
§ 1:85 —Navigable waters
§ 1:86 —Point source
§ 1:87 —Discharges
§ 1:88 —Pollutant
§ 1:89 Direct discharges
§ 1:90 —Discharges to publicly owned treatment works
§ 1:91 —Storm water
§ 1:92 —Wetlands
§ 1:93 —Great Lakes Water Quality Guidance

VII. WASTE MANAGEMENT: RESOURCE CONSERVATION AND RECOVERY ACT (RCRA)

§ 1:94 Waste management activities
§ 1:95 —Classification of wastes
§ 1:96 Exclusions from RCRA
§ 1:97 Recycled wastes
§ 1:98 Formal determinations that material is not a waste
§ 1:99 Regulation of hazardous waste—Generators
§ 1:100 Universal wastes
§ 1:101 Inadvertent TSD issues
§ 1:102 Historical on-site activities
§ 1:103 Underground storage tanks

VIII. OTHER ENVIRONMENTAL LAWS AND ISSUES

A. MIGRATORY BIRD TREATY ACT

§ 1:104 Migratory Bird Treaty Act—Introduction
§ 1:105 —Incidental takes
§ 1:106 —Enforcement of incidental takes
§ 1:107 —Compliance

B. HYDRAULIC FRACTURING

§ 1:108 Hydraulic fracturing

IX. INTERACTION WITH REGULATORY AGENCIES

§ 1:109 Overview of disclosure obligations
§ 1:110 General public disclosure procedures—Freedom of Information Act
§ 1:111 —Spill reporting
§ 1:112 —Requirement to obtain permit
§ 1:113 —Registration of activities
§ 1:114 —Voluntary reporting of noncompliance
§ 1:115 —Reporting of historical releases
§ 1:116 —Property transfers
§ 1:117 —SEC disclosure requirements
§ 1:118 —Asset retirement obligations: FIN 47 and FAS 143
§ 1:119 — Accrual of asset retirement obligations under FAS 143
§ 1:120 — Guidance provided by FIN 47
§ 1:121 — Conclusion
§ 1:122 — Fair value measurements and asset retirement obligations: FAS 157 and FAS 141R/141R-1
§ 1:123 Regulatory agencies involved
§ 1:124 — Federal agencies
§ 1:125 — State Agencies
§ 1:126 — Local agencies

**X. ENFORCEMENT**

§ 1:127 Enforcement procedures
§ 1:128 — Reporting and permitting
§ 1:129 — Civil inspections
§ 1:130 — Criminal inspections
§ 1:131 Requests for information
§ 1:132 — Notices of noncompliance or violations
§ 1:133 Administrative enforcement
§ 1:134 Civil enforcement
§ 1:135 Criminal enforcement
§ 1:136 Citizen enforcement
§ 1:137 Enforcement mandating cleanup activities or other affirmative demands under CERCLA
§ 1:138 — General notice of liability
§ 1:139 — Requests for information
§ 1:140 — Special notice letters
§ 1:141 — Unilateral administrative orders
§ 1:142 — Cost recovery and contribution actions in federal court

**XI. MISCELLANEOUS ISSUES RELATED TO MAINTAINING “ENVIRONMENTAL COMPLIANCE”**

§ 1:143 Labeling and advertising
§ 1:144 — Proposition 65 warning
§ 1:145 — Chlorofluorocarbon phase-out
§ 1:146 — “Green advertising” rules
§ 1:147 Preventing pollution by waste minimization and product changes
§ 1:148 Developing international standards (ISO 14000)
§ 1:149 Environmental justice concerns in permitting actions
§ 1:150 Potential applicability of Americans with Disabilities Act (ADA)
CHAPTER 2. ESTABLISHING AND MONITORING ENVIRONMENTAL COMPLIANCE PROGRAM

I. DOCUMENTATION AND DISCLOSURE

§ 2:1 In general
§ 2:2 Identifying purpose and value of a compliance program
§ 2:3 Supporting nondisclosure of environmental audits—
  Use of privileges
§ 2:4 —Attorney-client privilege
§ 2:5 —Attorney work product
§ 2:6 Evolving self-evaluative privilege
§ 2:7 Privilege under state laws
§ 2:8 General limitations on privileges
§ 2:9 —Evidence of environmental audits as mitigation for environmental crimes and penalties
§ 2:10 —EPA position on privilege as applied to environmental audits
§ 2:11 Evidence of compliance for environmental performance evaluation under ISO 14000
§ 2:12 —Summary regarding documentation issues
§ 2:13 —Effect of certification requirements on documentation and privilege issues

II. INTERNAL COMMUNICATIONS

§ 2:14 Preliminary description of environmental program to management
§ 2:15 —Elements of effective environmental auditing program under EPA’s 1986 policy statement
§ 2:16 2000 revisions to EPA auditing policy and 2008 new owners audit policy
§ 2:17 Elements of an effective auditing policy under the U.S. Sentencing Guidelines and enforcement policy
§ 2:18 Recommended elements for assuring observance of environmental compliance programs
§ 2:19 Reporting lines
§ 2:20 Determining objectives for compliance programs
§ 2:21 Selling compliance programs
§ 2:22 Measuring success of environmental compliance programs
§ 2:23 —Environmental compliance as part of compensation and personnel reviews
§ 2:24 Measuring success of environmental compliance programs: Indemnification of officers and directors
III. PARTICIPANTS INVOLVED

§ 2:25 Internal departments potentially involved in compliance programs
§ 2:26 —Environmental affairs or environmental engineering
§ 2:27 —Production managers
§ 2:28 —Legal
§ 2:29 —Public affairs
§ 2:30 —Human resources department
§ 2:31 —Research and development departments
§ 2:32 —Plant personnel
§ 2:33 Establishing environmental compliance committee or team
§ 2:34 —Necessary participants

IV. PREPARATION OF PROGRAM

§ 2:35 In general
§ 2:36 Preparing compliance programs
§ 2:37 —Potential scope for commercial properties
§ 2:38 —Potential scope for distribution and marketing systems
§ 2:39 —Industrial users of chemicals
§ 2:40 —Processing and refining
§ 2:41 —Activities involving treatment storage or disposal of “waste” (TSDF)
§ 2:42 —Compliance programs to assure flexibility in buying or selling businesses, or developing or discontinuing new products
§ 2:43 Deciding on form of audit
§ 2:44 —Format for documentation
§ 2:45 —Preparing scope of audit as function of business activity
§ 2:46 —Preparing compliance program for business units

V. COMPLIANCE PROCEDURES

§ 2:47 Development of procedures for environmental compliance
§ 2:48 —Procedures for research and development activity
§ 2:49 —Purchasing and supply-chain procedures
§ 2:50 —Control on used materials
§ 2:51 —Employee training
§ 2:52 —Procedures for governmental permits
§ 2:53 Procedures for hazardous or regulated material spills
§ 2:54 —Procedure for monitoring compliance
§ 2:55 —Procedures for inspection inquiries by governmental authorities
§ 2:56 Procedures for media inquiries and statements
§ 2:57 —Reporting obligations
§ 2:58 —Procedures for addressing results
§ 2:59 —Systems for tracking evolving regulations

VI. RISK ASSESSMENT
§ 2:60 Assessing risks identified from audit programs
§ 2:61 —Assessment criteria
§ 2:62 —Penalties under law
§ 2:63 —Likelihood of discovery and requirements to report
§ 2:64 —Business needs
§ 2:65 —Customer and public perception
§ 2:66 —Unasserted toxic tort claims
§ 2:67 —Tax implications

VII. PLANNING FOR THE FUTURE
§ 2:68 Special issues in planning for expansion, new products and new regulations
§ 2:69 —Expansion without external acquisitions
§ 2:70 —Expanded production capabilities
§ 2:71 —New products or significant new uses of chemicals
§ 2:72 —Expansion of businesses by acquisitions of new businesses
§ 2:73 —Assessing real estate for contamination and other environmental contingencies
§ 2:74 —Real estate audit phases
§ 2:75 —Due diligence requirements for “innocent landowner” or “bona fide prospective purchaser” status and All Appropriate Inquiries
§ 2:76 —Document review
§ 2:77 —Site visit
§ 2:78 —Key issues
§ 2:79 —Assessing other aspects of business for environmental contingencies
§ 2:80 —Business history
§ 2:81 —Liability issues for past practices
§ 2:82 Liability for subsidiaries, predecessors and dissolved corporations
§ 2:83 Forecasting the future
§ 2:84 Sale of businesses
§ 2:85 Closure of existing facilities

VIII. TRANSACTIONAL ISSUES
§ 2:86 Practical considerations for transactions
CHAPTER 3. COMPONENTS OF ENVIRONMENTAL COMPLIANCE PROGRAM

I. EDUCATION AND AWARENESS

§ 3:1 Types of programs
§ 3:2 Objectives
§ 3:3 Participants' responsibilities
§ 3:4 Training agenda
§ 3:5 —Seminars and meetings
§ 3:6 —E-Newsletters
§ 3:7 —On-line video training modules
§ 3:8 —Booklets, manuals and handbooks
§ 3:9 Compliance manual
§ 3:10 Delineation of responsibilities
§ 3:11 Code of conduct and certifications
§ 3:12 Employees
§ 3:13 Employee communication channels—Ombudsman
§ 3:14 —Employee hotline
§ 3:15 —Legal action

II. DOCUMENT RETENTION

§ 3:16 Document retention program—In general
§ 3:17 —Waste records
§ 3:18 —Permits and applications
§ 3:19 —Air monitoring information
§ 3:20 —Wastewater monitoring
§ 3:21 —Consent decrees and administrative orders
§ 3:22 —Other documents
§ 3:23 —Parties responsible
§ 3:24 —Storage issues
III. AUDIT PROCEDURES

§ 3:26 Baseline procedures for audits
§ 3:27 —Assembling the audit team
§ 3:28 —Special issues for audits
§ 3:29 Documentation audit
§ 3:30 —Facility diagrams
§ 3:31 —Chemical usage data
§ 3:32 —Reports filed
§ 3:33 —Applications and permits
§ 3:34 —Contingency and training plans
§ 3:35 —Exemption documentation
§ 3:36 —Inspection reports and correspondence
§ 3:37 —Internal reports and written policies
§ 3:38 —Adequacy of monitoring information
§ 3:39 —Assessment of confidential business information

IV. ASSESSMENT OF RESULTS

§ 3:40 Prioritizing audit findings
§ 3:41 Steps to take for enforcement exposure audit—EPA penalty policies
§ 3:42 —Steps for enforcement exposure assessment
§ 3:43 Adequacy and status of off-site disposal facilities
§ 3:44 Steps for assessments of materiality
§ 3:45 —Compliance costs
§ 3:46 —Evaluating cleanup costs
§ 3:47 —Budgeting environmental costs over several years
§ 3:48 —Consideration of financial disclosure issues
§ 3:49 Assuring accuracy of findings
§ 3:50 Risks of relying on invalid data
§ 3:51 —Steps to evaluate analytical data and testing information
§ 3:52 Verification and follow-up: corrective action plan

V. ACTING ON AUDIT RESULTS

§ 3:53 Taking action on audit results
§ 3:54 —Reporting obligations to environmental agencies
§ 3:55 —Voluntary reporting issues
§ 3:56 —Issues relating to voluntary disclosure
§ 3:57 Dilemmas for counsel when company decides not to report
§ 3:58 Dilemmas for counsel when company decides to report
§ 3:59 Changes in operating practices and new capital expenditures
§ 3:60 Personnel actions
§ 3:61 Consistency with other disclosure requirements
§ 3:62 Responding to requests for information
§ 3:63 Responding to draft proposal and final permits
§ 3:64 Handling governmental civil inspection investigations and civil enforcement
§ 3:65 Handling criminal inspections and investigations

VI. KEEPING CURRENT
§ 3:66 Updating environmental compliance program and refining audit procedures
§ 3:67 —Necessity of revision, keeping departments current on law and procedures
§ 3:68 —Tracking proposed and evolving regulations
§ 3:69 —Tracking trends and developments
§ 3:70 —Participation in development of standards
§ 3:71 —Additional information on EPA’s website

VII. COMPONENTS OF ENVIRONMENTAL COMPLIANCE PROGRAM
§ 3:72 Additional requirements for certified environmental management systems under ISO 14000
§ 3:73 Elements of environmental management systems
§ 3:74 International standard—ISO 14001: Specification for environmental management systems
§ 3:75 Comparison of ISO 14000 requirements with other environmental management systems criteria

CHAPTER 4. APPENDIX OF FORMS AND EXHIBITS

I. INTRODUCTION
§ 4:1 Protecting the company, directors, officers, and senior managers against vicarious liability

II. SAMPLE POLICIES, GUIDES, AND CHECKLISTS
   A. IN GENERAL
§ 4:2 Environmental policy: Sample I
§ 4:3 Environmental policy: Sample II
§ 4:4 Sample worksheet for quantifying transactional risks
§ 4:5 Sample environmental management plan
§ 4:6 Due diligence environmental investigation checklist
§ 4:7 Real estate transfers triggering state cleanup or disclosure requirements for commercial and residential property

B. AUDITING AND SELF-REPORTING RESOURCES
§ 4:8 Sample regulation tracking matrices
§ 4:9 Checklist of key environmental issues for ongoing compliance
§ 4:10 International environmental audits
§ 4:11 Current issues for updating an environmental compliance program
§ 4:12 Summary of state environmental audit policies

C. ENFORCEMENT INSPECTIONS AND REPORTING
§ 4:13 How to prepare for an environmental inspection checklist
§ 4:14 Handling an environmental inspection checklist

D. REPORTING REQUIREMENTS AND RECORD KEEPING
§ 4:15 EPCRA reporting requirements
§ 4:16 Lists of chemicals subject to reporting under federal environmental laws

III. STANDARDS AND CATEGORICAL LISTS
A. AIR
§ 4:17 Non-attainment lists
§ 4:18 Current regulatory requirements relating to climate and energy policy
§ 4:19 United States Environmental Protection Agency actions under the Clean Air Act—The Massachusetts v. EPA litigation
§ 4:20 —The EPA’s endangerment finding, the Clean Power Plan, and the Affordable Clean Energy rule
§ 4:21 —The Federal Greenhouse Gas Reporting Program
§ 4:22 The Regional Greenhouse Gas Initiative (RGGI)
TABLE OF CONTENTS

§ 4:24 Overview of state objectives to reduce GHGs emissions
§ 4:25 List of hazardous air pollutants
§ 4:26 List of ozone-depleting substances
§ 4:27 Control technique guidelines
§ 4:28 New source performance standards
§ 4:29 Toxic air pollutants and Maximum Achievable Control Technology
§ 4:30 Survey of state air quality standards
§ 4:31 Survey of state operating permits under the Clean Air Act Title V permit program

B. WATER
§ 4:32 EPA storm water permit requirements
§ 4:33 Drinking water checklist
§ 4:34 Categorical effluent guidelines for wastewater
§ 4:35 Survey of state groundwater monitoring and testing for closed landfills
§ 4:36 Survey of state permits for groundwater and surface water discharge

C. WASTE
§ 4:37 Definitions of “solid waste” and “hazardous waste”
§ 4:38 Waste exclusions
§ 4:39 Discarded chemical products and residues: Hazardous waste (40 C.F.R. § 261.33)
§ 4:40 Hazardous waste recycling

D. CHEMICALS, HAZARDOUS MATERIALS, AND OIL
§ 4:41 Summary of the OSHA hazard communication standard
§ 4:42 List of authorized PCB uses
§ 4:43 Checklist for items suspected of containing PCBs
§ 4:44 C.F.R. Requirements for storage tanks
§ 4:45 Standards for management of used oil by generators
§ 4:46 Asbestos removal procedure checklist
§ 4:47 Survey of state cleanup of underground storage tanks
IV. INDUSTRY STANDARDS, AGENCIES AND GUIDELINES

A. ENVIRONMENTAL PROTECTION AGENCY
§ 4:48 EPA headquarters and regional offices’ contact information

B. FEDERAL TRADE COMMISSION
§ 4:49 FTC guidelines for green advertising

C. INTERNATIONAL STANDARDS ORGANIZATION (ISO) 14000/14001
§ 4:50 Comparison of ISO 14001 to this handbook
§ 4:51 ISO 14000 publications and guidance

Table of Laws and Rules
