Index

ABORTION
Tobacco, inducement by, 25:45

ABUSE OF CHILDREN
Battered Child Syndrome (this index)
Hearsay exceptions for child statements, § 16:4
Projective techniques, § 11:14

ABUSE OF WOMEN
Battered Women Syndrome (this index)

ACCELERANTS
Fires, arsons and explosions, § 37:43, 37:49

ACCIDENT RECONSTRUCTION
Generally, § 41:1-41:14
Assumptions and uncertainty, § 41:13
Basis, § 41:12
Daubert factors, § 41:10, 41:11
Historical background, § 41:2
Peer review and publication, § 41:11
Police officers, qualifications, § 41:5
Publication record, § 41:7
Qualifications generally, § 41:3-41:7
general versus specific expertise, § 41:6
police officers, § 41:5
publication record, § 41:7
Relevance, § 41:8
Reliability, § 41:9-41:13

ACCIDENTS
Fires, § 37:50

ACCURACY
Drug testing, § 40:46
Forensic identification, § 29:40
Hypnosis, § 18:29
Polygraph Tests (this index)
Projective techniques, § 11:11

ACOUSTIC CHARACTERISTICS
Voice identification, § 36:7

ACTUARIAL STUDIES
Predictions of Violence (this index)
Sexual aggressors, § 10:45

ADAM WALSH ACT
Sexual aggressors, § 10:14

ADDITION
Tobacco, § 25:9, 25:22

AEROBIC EXERCISE
Diet drugs, § 27:15

ALASKA METHOD
Economic and financial expertise, time value of money, § 43:83

ALCOHOL TESTING
Generally, § 39:1-39:71
Acute ethyl alcohol fatalities, § 39:70
Auditory discrimination, impairment of, § 39:24
Aviation skills, impairment of, § 39:28
Biochemical tests, § 39:6, 39:34
Biomarkers, § 39:4
Blood, distribution of alcohol in, § 39:61
Body tissues, distribution of alcohol in, § 39:62
Bracelet, alcohol monitoring, § 39:5
blood and breath relationships, § 39:43
challenges to test results, § 39:48-39:52
chemical oxidation/photometry, § 39:57
condensation losses, § 39:42
ALCOHOL TESTING—Cont’d
Breath tests—Cont’d
detection technology and instrumentation, § 39:53-
39:57
documentation, challenge to test results based on failure to follow, § 39:50
electrochemical oxidation/fuel cell, § 39:55
evidential breath tester, § 39:47
gas chromatography, § 39:56
infrared spectrophotometry, § 39:54
instruments for testing, § 39:44-
39:47
passive alcohol sensor (PAS), § 39:45
procedure, challenge to test results based on failure to follow, § 39:50
residual mouth alcohol, § 39:41, 39:51
sampling breath for analysis, § 39:40-39:42
screening device, § 39:46
specificity, challenge to test results based on, § 39:49
variability of instrumentation, challenge to test results based on, § 39:52
Chain of custody, § 39:15
Chemical oxidation/photometry, breath tests, § 39:57
Chemical tests, § 39:6, 39:33
Combinations with other drugs, § 39:29-39:31
Condensation losses, breath tests, § 39:42
Confrontation clause, § 39:16
Decomposition, postmortem effects on blood alcohol concentrations, § 39:68
Depressants, combination with, § 39:29
Diffusion, postmortem effects on blood alcohol concentrations, § 39:65
Direct injection techniques, gas chromatography, § 39:37
Distillation techniques, gas chromatography, § 39:36
Distribution of alcohol in body, interpretation of test results, § 39:60-
39:64
Documentation, challenge to breath test results based on failure to follow, § 39:50
Driving ability, impairment of, § 39:23-39:27
Electrochemical oxidation/fuel cell, breath tests, § 39:55
Embalming, postmortem effects on blood alcohol concentrations, § 39:69
Evidential breath tester, § 39:47
Extraction techniques, gas chromatography, § 39:36
Field sobriety tests, § 39:11
Fit, horizontal gaze nystagmus (HGN), § 39:10
Forensic extrapolations, § 39:71
Gas chromatography generally, § 39:35-39:38
breath tests, § 61:56
direct injection techniques, § 39:37
extraction and distillation techniques, § 39:36
headspace techniques, § 39:38
validity of underlying theory or principle, § 39:6
General technique, § 39:12-39:16
Headspace techniques, gas chromatography, § 39:38
Horizontal gaze nystagmus (HGN) generally, § 39:9, 39:10
fit, § 39:10
validity and general acceptance, § 39:9
Infrared spectrophotometry, breath tests, § 39:54
Interpretation of alcohol concentrations, § 39:21
Interpretation of test results generally, § 39:58-39:70
analytical considerations, § 39:59
blood, distribution of alcohol in, § 39:61
INDEX

ALCOHOL TESTING—Cont’d
Interpretation of test results—Cont’d
body tissues, distribution of alcohol in, § 39:62
distribution of alcohol in body, § 39:60-39:64
postmortem effects on blood alcohol concentrations, below
urine, distribution of alcohol in, § 39:63
vitreous humor, distribution of alcohol in, § 39:64
Legal issues, § 39:1-39:18
Novel scientific evidence, § 39:3
Passive alcohol sensor (PAS), breath tests, § 39:45
Pharmacokinetics, § 39:71
Pharmacology and toxicology of ethyl alcohol
generally, § 39:20-39:31
auditory discrimination, impairment of, § 39:24
aviation skills, impairment of, § 39:28
combination with other drugs, § 39:29-39:31
depressants, combination with, § 39:29
driving ability, impairment of, § 39:23-39:28
effects of alcohol on central nervous system, § 39:22-39:28
interpretation of alcohol concentrations, § 39:21
reaction time, impairment of, § 39:26
senses, impairment of, § 39:23-39:25
stimulants, combination with, § 39:30
vision, impairment of, § 39:23
Postmortem effects on blood alcohol concentrations
generally, § 39:65-39:70
acute ethyl alcohol fatalities, § 39:70
decomposition, § 39:68
diffusion, § 39:65
embalming, effects of, § 39:69

ALCOHOL TESTING—Cont’d
Postmortem effects on blood alcohol concentrations—Cont’d
sampling considerations, § 39:66, 39:67
Procedures mandated by statute, § 39:13
Reaction time, impairment of, § 39:26
Residual mouth alcohol, breath tests, § 39:41, 39:51
Screening device, breath tests, § 39:46
Senses, impairment of, § 39:23-39:25
Source code, § 39:14
Specificity, challenge to breath test results based on, § 39:49
Statute, procedures mandated by, § 39:13
Stimulants, combination with, § 39:30
Technique, § 39:12-39:16
Testing procedures, generally, § 39:32
Time of testing, § 39:7
Toxicology, Pharmacology and toxicology of ethyl alcohol, above
Urine, distribution of alcohol in, § 39:63
Validity of underlying theory or principle, § 39:2-39:12
Variability of instrumentation, challenge to breath test results based on, § 39:52
Vision, impairment of, § 39:23
Vitreous humor, distribution of alcohol in, § 39:64

ALI
Insanity, test of, § 8:5

AMBIGUITY
Survey research, clarification by probing, § 7:19

AMNESIA
Repressed memories, § 19:11-19:14

Index-3
ANIMAL STUDIES
Toxicology, § 22:5

ANTINUCLEAR ANTIBODIES
Silicone implants, App. B § 23

ANTITRUST CASES
Monopolies and Antitrust (this index)

ANXIETY
Rape Trauma Syndrome (this index)

AORTIC ANEURYSM
Tobacco, § 25:28

APPEAL AND REVIEW
Eyewitness identifications, § 15:12
Federal Rules of Evidence, § 1:34

ARMED FORCES
Drug testing, worldwide surveys, § 40:24

ARSON
Fires, Arsons and Explosions (this index)

ASBESTOS—Cont’d
Exclusion of evidence
generally, § 26:13-26:18
Daubert factors, § 26:16
Federal Rules of Evidence, Rule 403, § 26:17
Federal Rules of Evidence, Rule 703, § 26:15
general acceptance, § 26:14
qualifications, lack of, § 26:13
sufficiency, § 26:18
Federal Rules of Evidence, Rule 403, § 26:17
Federal Rules of Evidence, Rule 703, § 26:15
Future directions, § 26:32
General acceptance, § 26:14
Legal issues, § 26:1-26:19
Lung cancer, § 26:25, 26:29
Market share, causation, § 26:6
Mesothelioma, § 26:24, 26:28
Multiple defendants, causal contributions of each of, § 26:5
Qualifications, exclusion of evidence based on lack of, § 26:13
Scientific method applied to research, § 26:21
Scientific questions, § 26:20
Smoking and asbestos exposure, § 26:12
Specific causation, § 26:4-26:11
State of the art, § 26:31

ASSUMPTIONS
Accident reconstruction, § 41:13
Economic and financial expertise, causation, § 43:19
Parentage, § 31:13, 31:14

ATHEROSCLEROTIC PERIPHERAL VASCULAR DISEASE
Tobacco, § 25:27

ATTORNEYS
Battered women syndrome, effective assistance of counsel, § 12:19
Ethics (this index)
ATTRIBUTIONS
Gender stereotypes, application of,
§ 17:24-17:31

AUTOIMMUNE DISEASES
Silicone implants, App. B § 24

AUTOMOBILES
Motor Vehicles (this index)

AUTOPSIES
Tobacco, § 25:19

AVIATION
Alcohol testing, impairment of skills,
§ 39:28

BATTERED CHILD SYNDROME
Agreement among scientists, areas
of, § 13:12
Disagreement among scientists, areas
of, § 13:12
Future directions, § 13:13
Hypervigilance, § 13:9
Impact of abuse on child, § 13:7-13:10
Learned helplessness, § 13:10
Legal issues, generally, § 13:1-13:4
Medical model, § 13:2
Parricide, § 13:6
Posttraumatic stress disorder, § 13:8
Psychological model, § 13:3
Scientific methods applied to research, § 13:11
Scientific questions, § 13:5-13:10

BATTERED WOMEN SYNDROME
Generally, § 12:1-12:30
Agreement among scientists, areas
of, § 12:28
Civil cases, § 12:21
Constitutional issues, § 12:18-12:20
Counsel, effective assistance of,
§ 12:19
Cycle theory, self-defense, § 12:4
Disagreement among scientists, areas
of, § 12:29
Due process, § 12:19
Duress, judicial response to syndrome, § 12:15

—Cont’d
Dynamics of abusive relationships,
§ 12:25
Effective assistance of counsel,
§ 12:19
Equal protection, § 12:20
Excuse or justification, self-defense,
§ 12:14
Failure to leave abusive relationship,
self-defense, § 12:8
Future directions, § 12:30
Honesty of belief in need to use deadly force, self-defense,
§ 12:11
Iniminent harm, self-defense, § 12:9-12:12
Impact of abuse on woman, § 12:26
Justification or excuse, self-defense,
§ 12:14
Learned helplessness, self-defense,
§ 12:5
Legal issues, generally, § 12:1-12:22
Prosecution use of syndrome, § 12:17
Psychological sequelae, § 12:26
Reasonableness of belief in need to use deadly force, self-defense,
§ 12:12
Scientific methods applied in research, § 12:27
Scientific questions, § 12:23-12:26
Scope of problem, § 12:24
Self-defense
generally, § 12:2-12:16
context or social framework, use of syndrome to provide, § 12:13
cycle theory, § 12:4
failure to leave abusive relationship, § 12:8
honesty of belief in need to use deadly force, § 12:11
imminent harm, § 12:9-12:12
incongruence between syndrome and traditional notions of self-defense, § 12:10
judicial responses to syndrome,
§ 12:6-12:14
justification or excuse, § 12:14
learned helplessness, § 12:5
BATTERED WOMEN SYNDROME—Cont’d
Self-defense—Cont’d
reasonableness of belief in need to use deadly force, § 12:12
theory of syndrome, § 12:3-12:5

BEHAVIORAL GENETICS
Neuroimaging, § 20:63

BEHAVIOR OR EMOTIONAL DISORDERS
Neuroimaging, § 20:11

BENCHMARKS
Statistical evidence, interpretation of rates or percentages, § 5:21

BENCH TRIALS
Federal Rules of Evidence, admissibility of expert testimony, § 1:10

BENZENE
Generally, § 28:1-28:37
Admissibility issues, § 28:11-28:15
Blood counts, § 28:32
Cancer, § 28:22
Causation, § 28:3-28:10, 28:21-28:36
Chemical properties, § 28:18
Chromosome abnormalities, § 28:33
Chronic lymphatic leukemia, § 28:25
Competing exposure and causes, § 28:29, 28:34
Cytogenetics, § 28:33
Daubert criteria, § 28:13
Dosage, § 28:7
Dose-response issues, § 28:30
Exposure issues, § 28:28, 28:29
Fit, admissibility issues, § 28:14
Frye, admissibility issues, § 28:15
Hematological cancer, § 28:22
Hematological nomenclature, § 28:20
Injury similarity, § 28:6
Latency periods, § 28:31
Lymphoproliferative disorders, § 28:23-28:26
Multiple myeloma, § 28:26
Non-cancerous conditions, § 28:21
Non-causation issues, § 28:2

BENZENE—Cont’d
Qualifications, § 28:12
Risk assessment, § 28:30
Sensitivity, § 28:36
Statistical significance, § 28:8
Substance similarity, § 28:5
Toxicity to blood and blood forming organs, § 28:19
Toxicology, § 28:18

BIAS
Children, suggestibility, § 16:21
Forensic identification, observation and interpretation, § 29:47
Scientific method, selection bias, § 4:16
Survey research, § 7:16

BIOCHEMICAL TESTS
Alcohol testing, § 39:6, 39:34

BIOMARKERS
Alcohol testing, § 39:4

BITEMARKS
Generally, § 35:1 et seq., App. 35A to App. 35F
Accuracy of skin as substrate for bitemarks, § 35:18, 35:22
Agreement among scientists, areas of, § 35:29 et seq.
Amici curiae brief submitted in Richards case, App. 35F
Analysis and recognition of bitemarks, § 35:12, 35:13
Areas of dental testimony, § 35:9
Bruising and other considerations, § 35:19
Collection of evidence, § 35:30 et seq., App. 35B
Comparisons of bitemarks, § 35:33, App. 35C
Daubert factors, § 35:2
Digital analysis, § 35:26
Disagreement among scientists, areas of, § 35:34
Divergence of opinions by experts, § 35:3
DNA, § 35:27, 35:28
Erroneous identification and conviction, § 35:7
INDEX

BITEMARKS—Cont’d
Future directions, § 35:36
Individuality of human detention, § 35:20, 35:23
Judicial response to expert evidence, § 35:4 et seq.
Legal issues, § 35:1 et seq.
Limitations of bitemark evidence generally, § 35:17 et seq.
accuracy of skin as substrate for bitemarks, § 35:18
bruising and other considerations, § 35:19
individuality of human detention, § 35:20
Literature on bitemark identification generally, § 35:21 et seq.
accuracy of skin as record of bitemarks, § 35:22
analytical techniques, § 35:24
individuality of human detention, § 35:23
Multiple methods, § 35:15
NRC Report and odontology, § 35:12
Patterns, § 35:16
Preservation of bitemark evidence, ABFO Guidelines, App. 35A
Professional forensic organizations, § 35:10
Proficiency testing, § 35:13
Recognition and analysis of bitemarks, § 35:12, 35:13
Scientific methods applied to comparison techniques, § 35:14
Scoring sheet for bitemark analysis, App. 35D
Technical advancements, § 35:25 et seq.
Training, § 35:10
Vulnerability of physical evidence categories in light of Daubert criteria, § 29:56

BLOOD
Alcohol testing, § 39:61
Benzene, § 28:32
Forensic identification, vulnerability of physical evidence categories in light of Daubert criteria, § 29:51

BRACELETS
Alcohol monitoring bracelets, § 39:5

BRAIN CANCER
Electromagnetic fields, residential exposures, § 24:23

BRAIN FINGERPRINTING
Polygraph tests, guilty knowledge test (GKT), § 38:109

BREAST CANCER
Tobacco, § 25:32

BREAST IMPLANTS
Silicone Implants (this index)

BREATH TESTS
Drug Testing (this index)

BRUISING
Bitemarks, § 35:19

BULLET MARKS
Declaring a match, App. C § 5
Inferring association from a match, App. C § 6
Legal issues, App. C § 1, 2
Measuring concentration of elements, App. C § 4

BURDEN OF PROOF
Federal Rules of Evidence, § 1:9
Fingerprints, § 32:5
Fires, arsons and explosions, § 37:7
Insanity, commitment following acquittal by reason of, § 8:10
Predictions of violence, constitutional law, § 9:7
Repressed memories, § 19:20
Sexual aggressors, § 10:23

BLACK HOLES
Fires, arsons and explosions, § 37:53

BLADDER CANCER
Tobacco, § 25:33

INDEX-7
CANCER
Benzene, § 28:22 et seq.
Silicone implants, App. B § 26

CANINE DETECTION
Fire accelerants, § 37:26, 37:41

CAPITALIZATION OF EARNINGS
Economic and financial expertise, § 43:26

CAPITAL PUNISHMENT
Insanity and diminished capacity, § 8:11, 8:12
Mental retardation, § 8:13

CARDIOVASCULAR DISEASE
Tobacco, § 25:23

CAUSATION
Asbestos (this index)
Benzene, § 28:3-28:10, 28:21-28:36
Clinical medical testimony, § 21:2
Diet drugs, § 27:2-27:5
Economic and Financial Expertise (this index)
Electromagnetic fields, § 24:7, 24:8
Epidemiology, § 23:2
Fires, arsons and explosions, § 37:52
Hypnosis, § 18:37
Monopolies and antitrust, damages, § 43:15
Multiple regression, changes in dependent variable by explanatory variables, § 6:16
Patents, damages, § 43:17
Scientific Method (this index)
Sexual aggressors, § 10:54
Specific Causation (this index)
Tobacco, § 25:8
Toxicology, § 22:7

CENSUSES
Statistical Evidence (this index)

CERTAINTY—Cont’d
Eyewitness identifications, § 15:42
Fires, arsons and explosions, § 37:66
Forensic identification, § 29:41
Hypnosis, § 18:15, 18:29, 18:30

CERTIFICATION
Drug testing, laboratory practices, § 40:48

CERVICAL CANCER
Tobacco, § 25:36

CHAIN OF CUSTODY
Alcohol testing, § 39:15
Drug testing, § 40:13, 40:49

CHANCE
Scientific method, § 4:37

CHEMICAL
OXIDATION/PHOTOMETRY
Alcohol breath tests, § 39:57

CHEMICAL PROPERTIES
Benzene, § 28:18

CHEMICAL SENSITIVITIES
Neuroimaging, § 20:7

CHEMICAL TESTS
Alcohol testing, § 39:6, 39:33

CHILDREN
Generally, § 16:1-16:39
Abuse cases, hearsay exceptions for child statements in, § 16:4
Abuse of Children (this index)
Battered Child Syndrome (this index)
Bias of interviewer, suggestibility, § 16:21
Confrontation of witnesses in-court testimony, § 16:6
out-of-court statements, § 16:3
Constructive nature of memory, suggestibility, § 16:15
Conversational issues and linguistic processes, age differences in, § 16:36
Courtroom, issues with, § 16:35-16:38

CERTAINTY
Asbestos, causation, § 26:7

Index-8
CHILDREN—Cont’d
Credibility of child witnesses, expert
testimony to attack or buttress,
§ 16:7-16:9
Development and memory
generally, § 16:29-16:34
individual differences in memory
and suggestibility, § 16:34
knowledge, age differences in,
§ 16:32
memory, age differences in,
§ 16:31
source monitoring, age differences
in, § 16:33
suggestibility, age differences in,
§ 16:30
Dolls and props, § 16:26
Electromagnetic fields, childhood
cancer and residential exposures, § 24:22, 24:26
Emotional tone and reinforcement of
child’s behavior and responses,
interviews and suggestibility,
§ 16:23
Future directions, § 16:39
Hearsay evidence, out-of-court state-
ments, § 16:2-16:4
In-court testimony
generally, § 16:5-16:10
confrontation of child witnesses,
opportunity for, § 16:6
credibility of child witnesses,
expert testimony to attack or buttress, § 16:7-16:9
physical separation of child wit-
ness from defendant, § 16:10
scope of expert testimony regard-
ing credibility, § 16:9
Individual differences in memory and
suggestibility, § 16:34
Influence of status of interviewer,
suggestibility, § 16:20
Interviews and suggestibility
generally, § 16:17-16:25
bias of interviewer, § 16:21
emotional tone and reinforcement
of child’s behavior and
responses, § 16:23
CHILDREN—Cont’d
Interviews and suggestibility
—Cont’d
influence of status of interviewer,
§ 16:20
peer pressure and peer interaction,
§ 16:22
repeated interviews, § 16:18
stereotype induction, § 16:19
type of questioning technique,
§ 16:24
visualization and sociodramatic
play, § 16:25
Knowledge, age differences in,
§ 16:32
Legal issues, § 16:1-16:11
Linguistic processes and
conversational issues, age differ-
ences in, § 16:36
Lying and truth-telling, § 16:38
Memory, generally, § 16:1-16:39
Out-of-court statements
generally, § 16:2-16:4
abuse cases, hearsay exceptions for
child statements in, § 16:4
Confrontation Clause, § 16:3
hearsay, § 16:2-16:4
Parentage (this index)
Peer pressure and peer interaction,
interviews and suggestibility,
§ 16:22
Physical separation of child witness
from defendant, in-court
testimony, § 16:10
Props and dolls, § 16:26
Repeated interviews, suggestibility,
§ 16:18
Salient events, actions and children’s
bodies, § 16:16
Silicone implants, App. B § 28
Single occurrence of repeated event,
ability to recall, § 16:28
Sociodramatic play, interviews and
suggestibility, § 16:2
Source monitoring, age differences
in, § 16:33
Stereotype induction, interviews and
suggestibility, § 16:19
CHILDREN—Cont’d
Suggestibility of child witnesses generally, § 16:13-16:16
age differences, § 16:30
constructive nature of memory, § 16:15
defining suggestibility, § 16:14
interviews and suggestibility, above
salient events, actions and children’s bodies, § 16:16
Testimony, generally, § 16:1-16:39
Tobacco (this index)
Truth-telling and lying, § 16:38
Videotaped evidence, § 16:37
Visualization, interviews and suggestibility, § 16:25
Witnesses, generally, § 16:1-16:39

CHROMOSOMES
Benzene, § 28:33

CHRONIC LYMPHATIC LEUKEMIA
Benzene, § 28:25

CIGARETTES
Tobacco (this index)

CIGAR SMOKING
Health effects, § 25:50

CLARITY
Survey research, § 7:16

CLASS ACTIONS
Economic and financial expertise, measure of damages, § 43:30
Monopolies and antitrust, § 43:33-43:37
Tobacco, third wave tobacco litigation, § 25:5

CLASSIFICATION
Eyewitness identifications, classification of variables, § 15:18-15:27
Fires, Arsons and Explosions (this index)
Survey research, consistent and accurate classification, § 7:31

CLINICAL MEDICINE
Generally, § 21:1-21:25

CLINICAL MEDICINE—Cont’d
Agreement among scientists, areas of, § 21:4
Causal reasoning, § 21:44
Causation, § 21:2
Collecting information, § 21:32-21:39
Decision making, § 21:28-21:30
Diagnosis and differential diagnosis, § 21:40
Differential diagnostic opinions generally, § 21:4-21:8
agreement among scientists, areas of, § 21:4
disagreement among scientists, areas of, § 21:5-21:7
explaining differences, § 21:8
ruling in before ruling out, § 21:6
temporal order, § 21:7
Disagreement among scientists, areas of, § 21:5-21:7
Environmental disease, § 21:47-21:56
Exclusion of expert testimony generally, § 21:9-21:13
Federal Rules of Evidence, Rule 702, § 21:12
Federal Rules of Evidence, Rule 703, § 21:13
general acceptance, § 21:11
qualifications, lack of, § 21:10
Federal Rules of Evidence, Rule 702, § 21:12
Federal Rules of Evidence, Rule 703, § 21:13
Formulating diagnostic hypotheses, § 21:41
General acceptance, § 21:11
Genetic research, § 21:20
Human research, § 21:21-21:25
Integrating medical research into practice, § 21:26, 21:27
Interpreting diagnostic tests, § 21:43
Legal issues, § 21:1-21:14
Medically-related basic research, § 21:18 et seq.
Medical knowledge, § 21:17
Neuroimaging, § 20:58-20:61
CONSISTENCY AND CONSTANCY
—Cont’d
Survey research, clarification of ambiguous or incomplete answers, § 7:19

CONSTITUTIONAL LAW
Battered women syndrome, § 12:18-12:20
Confrontation clause, drug testing, § 40:15
Due Process (this index)
Equal Protection (this index)
Eyewitness identifications, § 15:13, 15:14
Polygraph tests, § 38:10
Predictions of violence, § 9:6, 9:7
Sexual Aggressors (this index)

CONTEXT EFFECTS
Survey research, avoidance or measurement, § 7:20

CONTRACTS
Economic and financial expertise, causation of damages, § 43:16

CONTROL GROUP OR QUESTION
Polygraph Tests (this index)
Survey research, § 7:21

CONVERSATIONAL ISSUES
Children, § 16:36

CORONARY HEART DISEASE
Tobacco, § 25:24

CORRELATION
Epidemiology (this index)
Statistical Evidence (this index)

CORROBORATION
Neuroimaging, § 20:12
Polygraph tests, § 38:8

COUNTERMEASURES
Polygraph Tests (this index)

COURT-APPOINTED EXPERTS
Federal Rules of Evidence, § 1:37-1:39

CRAZED GLASS
Fires, arsons and explosions, § 37:55

CREDIBILITY OF WITNESSES
Children, expert testimony to attack or buttress credibility, § 16:7-16:9

CRIME SCENES
Fingerprints, § 32:42

CRIMINAL CASES
Ethics, discovery under Rules of Criminal Procedure, § 2:19
Federal Rules of Evidence, § 1:35
Neuroimaging, § 20:9-20:17
Parentage, § 31:7

CYCLE THEORY
Battered women syndrome, self-defense, § 12:4

CYTOGENETICS
Benzene, § 28:33

DAMAGES
Economic and Financial Expertise (this index)

DATE
Time and Date (this index)

DEATH CASES
Neuroimaging, § 20:17

DECOMPOSITION
Alcohol testing, postmortem effects on blood alcohol concentrations, § 39:68

DEDUCTION AND INDUCTION
Forensic identification, § 29:35

DEEP BRAIN STIMULATION
Neuroimaging, § 20:60

DEPENDABILITY
Taxonomy of expertise, App. A § 16

DEPRESSANTS
Alcohol testing, § 39:29

DEPRESSION
Rape Trauma Syndrome (this index)

DESIGN
Scientific Method (this index)
DIRECTED LIE TEST (DLT)
Polygraph Tests (this index)

DIRECT INJECTION
TECHNIQUES
Alcohol testing, gas chromatography,
§ 39:37

DISAGGREGATION
Monopolies and antitrust, summary judgment, § 44:13

DISCLOSURE
Fires, arsons and explosions, § 37:28
Survey research, § 7:32-7:34

DISCOUNTED CASH FLOW
VALUATION
Economic and financial expertise,
§ 43:22

DISCOUNT RATES
Economic and financial expertise,
§ 43:25

DISCOVERY
DNA, discovery and access to experts, § 30:26
Ethics, relationship between attorneys and experts, § 2:14-2:19

DISCRIMINATION
Economic and financial expertise, personal damages, § 43:78

DISGUISES
Voice identification, § 36:21

DISSOCIATIVE IDENTITY
DISORDER
Multiple Personality Disorder (this index)

DISTILLATION TECHNIQUES
Alcohol testing, gas chromatography,
§ 39:36

DNA
Generally, § 30:1 et seq., App. 30A, App. 30B
Access to evidence, § 30:26-30:29
Authoritative texts, § 30:5
Basic principles, § 30:1

DNA—Cont’d
Bitemarks, § 35:27, 35:28
CODIS, § 30:4
Cold hits, objections to admissibility,
§ 30:20
Database search, objections to admissibility, § 30:20
Defense of access to database,
§ 30:28
Definitions, App. 30B
Discovery and access to experts,
§ 30:26
Error by lab or analyst, objections to admissibility, § 30:9
Expert qualifications, objections to admissibility, § 30:16
Extraction and amplification, § 30:43
Familial searches, § 30:35
Incorporating error rate into calculations, objections to admissibility,
§ 30:18
Laboratory performance, § 30:48
Low copy number typing, § 30:32
Mitochondrial DNA, § 30:31, 30:56
Mixtures, § 30:12, 30:58
New systems, § 30:36
New technologies, § 30:46
Nonhuman DNA testing, § 30:59
Objections to admissibility current, § 30:10-30:25
historical, § 30:6-30:9
Parentage (this index)
Phenotypic testing, § 30:37
Polymorphisms, § 30:42
Population genetics, generally, § 30:3
Preservation of evidence, objections to admissibility, § 30:14
Pretrial retesting, § 30:27
Proficiency testing, objections to admissibility, § 30:17
Quality assurance, objections to admissibility, § 30:17
Sample collection, preservation, and contamination, § 30:47
Scandals, objections to admissibility, § 30:15
SNPs, § 30:34
Statistical analysis, § 30:49-30:55
INDEX

DNA—Cont’d
Statistical evidence, presentation of, § 30:22-30:25
STR profiling with capillary electrophoresis, § 30:44
Subjectivity, objections to admissibility, § 30:11
Terminology and taxonomy of typing systems, § 30:2
Transfer, objections to admissibility, § 30:13
Validating genetic system for identification, § 30:45
Y chromosomes, § 30:57
Y-STR typing, § 30:30

DOCUMENTATION
Records and Documentation (this index)

DOGS
Fire accelerants, § 37:26, 37:41

DOLLS AND PROPS
Children, § 16:26

DOSAGE
Benzene, § 28:7
Epidemiology, § 23:10

DOUBLE JEOPARDY
Sexual aggressors, § 10:9-10:12

Laboratory studies, § 24:19, 24:21
Legal issues, § 24:1-24:11
Leukemia and residential exposures, § 24:23
Personal injury, § 24:5
Physics, § 24:25
Power line siting, regulation of, § 24:3
Primacy of epidemiology, § 24:10
Property value, loss of, § 24:4
# INDEX

## ELECTROMAGNETIC FIELDS
- Cont’d
- Residential exposures, § 24:15, 24:22, 24:23, 24:26, 24:31
- Scientific methods applied to research, § 24:18-24:21
- Scientific questions, § 24:12-24:17
- Sources of evidence, § 24:18
- Sources of exposure and ways of characterizing exposure, § 24:14-24:16
- Specific causation, § 24:8
- Training of experts, § 24:18

## ELECTROPHYSIOLOGY
- Neuroimaging, § 20:57

## EMBALMING
- Alcohol testing, postmortem effects on blood alcohol concentrations, § 39:69

## EMPIRICAL EVIDENCE
- Scientific Method (this index)

## EMPLOYMENT
- Drug Testing (this index)
- Economic and financial expertise, personal damages for discrimination, § 43:78
- Gender stereotypes, application of, § 17:28
- Polygraph Tests (this index)
- Wrongful death, occupational history and likely education, § 43:71

## ENDOMETRIAL CANCER
- Tobacco, § 25:39

## ENGINEERING
- Structural Engineering (this index)

## ENVIRONMENTAL TOBACCO SMOKE
- Evidence, § 25:11

## E.P.A. REGULATIONS
- Environmental tobacco smoke, § 25:7

## EPIDEMIOLOGY
- Generally, § 23:1-23:47
- Absence of epidemiological evidence, § 23:4
- Asbestos, use to prove specific causation, § 26:8-26:11
- Assessment of capacity of exposure to cause illness or injury, § 23:29
- Capacity of exposure to cause illness or injury, assessment of, § 23:29, 23:40 et seq.
- Case-control studies, § 23:36 et seq.
- Causal questions and structure of science, § 23:2
- Cohort studies, § 23:35
- Correlational or ecologic studies generally, § 23:32 et seq.
- case-control studies, § 23:36 et seq.
- cohort studies, § 23:35
- followup studies, § 23:35
- information bias, case-control studies, § 23:38
- nonrandomized studies, § 23:34 et seq.
- randomized controlled studies, § 23:33
- selection bias, case-control studies, § 23:37
- Daubert factors, § 23:17 et seq.
- Definitions, App. 23A
- Design of study, § 23:6
- Diet drugs, causation, § 27:4
- Differential diagnosis, individual level evidence, § 23:28
- Dosage, § 23:10
- Ecologic studies, Correlational or ecologic studies, above
- Electromagnetic fields, § 24:10, 24:19, 24:20
- Error rate, § 23:19
- Estimation of likelihood that exposure capable of causing illness actually did so in given exposed individual, § 23:46
- Exclusion of evidence generally, § 23:15 et seq.
- Daubert factors, § 23:17 et seq.
EPIDEMIOLOGY—Cont’d

EXCUSE OR JUSTIFICATION
Battered women syndrome, self-defense, § 12:14

EXERCISE
Diet drugs, § 27:13-27:16

EXPERIENCE
Forensic identification, substitution for defensible scientific fact, § 29:37
EXPO\NSIONS
Fires, Arsons and Explosions (this
index)

EX POST FACTO CLAUSE
Sexual aggressors, § 10:9-10:12

EXPOSURE ISSUES
Benzene, § 28:28, 28:29

EXTRACTION
Alcohol testing, gas chromatography, § 39:36

EXTRAPOLATION
Statistical evidence, § 5:12

EYEWITNESS IDENTIFICATIONS
Generally, § 15:1-15:46
Admissibility, generally, § 15:2-15:7
Age of eyewitness, § 15:35
Agreement among scientists, areas of, § 15:29-15:42
Appellate review, standards of, § 15:12
Assistance to trier of fact, § 15:3
Certainty, post-identification, § 15:42
Characteristics of event, § 15:26
Characteristics of eyewitness, § 15:25
Classification of variables, § 15:18-15:27
Constitutional claims, § 15:13, 15:14
Disagreement among scientists, areas of, § 15:43-15:47
Due process, § 15:14
Effects of expert testimony, § 15:45
Estimator variable questions generally, § 15:19-15:26, 15:30-15:35
age of eyewitness, § 15:35
characteristics of event, § 15:26
characteristics of eyewitness, § 15:25
forgetting, § 15:23
limited processing capacity, § 15:21
opportunity to view, § 15:32
race, § 15:31
retention interval, § 15:34

ESTIMATOR VARIABLE QUESTIONS—Cont’d
Forgetting, § 15:23
Future directions, § 15:48
General acceptance, § 15:5
Generalizability of findings, § 15:44
Guidelines for conduct of lineups, § 15:47
Initial questioning of eyewitnesses, § 15:37
Instructions to jury, § 15:11
Legal issues, § 15:1-15:13
Limited processing capacity, § 15:21
Lineup identification instructions given to eyewitness, § 15:39
Loaded questions, use of, § 15:38
Methods of lineup presentation, § 15:41
Methods of research, § 15:28
Opportunity to view, § 15:32
Post-identification certainty, § 15:42
Prejudice, weighing, § 15:6
Pretrial hearings to assess suggestiveness and reliability, § 15:8
Pretrial motions to suppress identification evidence, § 15:46
Probative value, weighing, § 15:6
Procedural challenges, § 15:7-15:10
Race, § 15:31
Reliability of science, § 15:4
Retention interval, § 15:34
Right to call witnesses, § 15:13
Scientific questions, § 15:17-15:27
Selection of distractors, § 15:40
Specific questions asked by researchers, § 15:24-15:26
Stimulus and storage, § 15:22
System variable questions generally, § 15:27, 15:36-15:42
initial questioning of eyewitnesses, § 15:37
EYEWITNESS IDENTIFICATIONS
—Cont’d
System variable questions—Cont’d
lineup identification instructions
given to eyewitness, § 15:39
loaded questions, use of, § 15:38
method of lineup presentation,
§ 15:41
post-identification certainty,
§ 15:42
selection of distractors, § 15:40
Unfair prejudice, weighing, § 15:6
Validity of science, § 15:4
Weapon focus, § 15:33

Alcohol testing, § 39:11
FINANCIAL EXPERTISE
Economic and Financial Expertise (this index)
FINGERPRINTS
Generally, § 32:1-32:53, App. 32A
Ability of fingerprint examiners, § 32:44
Absolute identification, case for, § 32:33, 32:45, 32:46
Admission by other courts, reliance on, § 32:9
Agreement among scientists, areas of, § 32:38-32:44
Avoidance of actual Daubert analysis, § 32:7
Bringing standards down to meet expertise, § 32:12
Burden of persuasion, reversal of, § 32:5
Comparison of fingerprints, § 32:31
Constancy of patterns, § 32:22, 32:39
Counting minutiae or points of comparison, § 32:34
Crime scene fingerprints, § 32:42

Index-24
FINGERPRINTS—Cont’d
Criteria for identification, § 32:45, 32:46
Daubert, admissibility prior to, § 32:2
Daubert, federal court challenges after, § 32:3-32:28
Definitions, App. 32A
Development of fingerprints, § 32:25
Disagreement among scientists, areas of, § 32:45-32:52
Disposal of latent lifts, § 32:52
Documentation, § 32:51
Empirical validation, § 32:47
Erroneous identifications, § 32:20
Examination of fingerprints, § 32:30
Exclusionary value, § 32:49
Experience of fingerprint examiners, § 32:44
Flexibility of criteria, § 32:11, 32:46
Forged fingerprints, § 32:50
Future directions, § 32:53
General acceptance, reliance on, § 32:10
Generalized case for absolute identification, § 32:33
Interpretation and identification, § 32:32, 32:43
Legal issues, § 32:1-32:20
Omission of fingerprint processing, § 32:52
Planted fingerprints, § 32:50
Processing of fingerprints, § 32:28
Proficiency testing, § 32:47
Qualified identifications, § 32:36, 32:48
Recording of fingerprints, § 32:28
Refusal to conduct Daubert hearing, § 32:4
Reliability, § 32:22
Reporting, § 32:51
Retrieval of records, § 32:26, 32:29, 32:41
Scientific methods applied to research, § 32:27-32:37
Scientific questions, § 32:21-32:26
Self-evident criteria, § 32:45
Self-regulation, § 32:47
Short-lived exception to usual evasions, § 32:14-32:16

FIREARMS AND TOOLMARKS
Generally, § 34:1-34:14, App. 34A, App. 34B
Agreement among scientists, areas of, § 34:10
Current developments in caselaw, § 34:5
Daubert, decisions after, § 34:4
Definitions, App. 34A
Disagreement among scientists, areas of, § 34:11, 34:12
Eyewitness identifications, focus on weapon, § 34:13
Future directions, § 34:14
Legal issues, § 34:1-34:6
Objective criteria for identification, development of, § 34:13
Questions designed to test witness’s ability to identify striated toolmarks, App. 34B
Scientific methods applied to research, § 34:9
Scientific questions, § 34:8
FIRES, ARSONS AND EXPLOSIONS—Cont’d

Daubert standard—Cont’d
Scientific foundation, § 37:8-37:19
Time and cause of death, § 37:14

Definitions, App. 37A

Destructive device standard, § 37:33
Detection of explosives, § 37:71
Disagreement among scientists, areas of, § 37:46 et seq.

Disclosure of expert and reports, § 37:28

Dogs, detection of accelerants by, § 37:26, 37:41

Electrical activity, § 37:51

Errors in original determinations, § 37:39

Exclusion of expert evidence. Admissibility or exclusion of expert evidence, above

Explosions and explosives, § 37:61, 37:71

Explosive device standard, § 37:33

Fatal fires, § 37:60

Future directions, § 37:72

Glass, crazed, § 37:55

Identification of petroleum products, § 37:45

Independent testing, need for, § 37:31

Indigent defendants, access to experts, § 37:29

Individualization of petroleum products, § 37:45

Laboratory analysis, § 37:44, 37:45, 37:68

Legal issues, § 37:1-37:33

Low temperature ignition, § 37:58

Melted steel, § 37:54

Modeling with computers, § 37:59

Motive testimony, § 37:11

Motor vehicles, stolen autos recovered burned, § 37:63

Negative corpus, § 37:65

Periodical literature, § 37:36
INDEX

FIRES, ARSONS AND EXPLOSIONS—Cont’d
Prejudicial photos or imagery, § 37:32
Presumption of accidental cause, § 37:64
Sample preparation, standard methods of, § 37:69
Smoke detectors, § 37:62
Sniffers, § 37:42
Sources, § 37:35, 37:36
Spalling of concrete, § 37:56
Standard methods of sample preparation, § 37:69
Steel, melted, § 37:54
Stolen autos recovered burned, § 37:63
Test burns, § 37:38
Uncertainty in measurement, § 37:40
Ventilation controlled fires, § 37:48
Vulnerability of physical evidence categories in light of Daubert criteria, § 29:57

FORENSIC IDENTIFICATION
—Cont’d
Comparison—Cont’d
identification processes vs. comparison processes, § 29:27
independence of features, § 29:25
Cross-examination right, § 29:16
Deduction and induction, § 29:35
Definitions, App. 29A
DNA (this index)
Documentation of findings, § 29:45
Drugs of abuse, vulnerability of physical evidence categories in light of Daubert criteria, § 29:59
Experience, substitution for defensible scientific fact, § 29:37
Expression of certainty of opinions, § 29:41
Failure of forensic sciences to consistently appreciate implications of scientific method, § 29:36
Features, comparisons, § 29:24, 29:25
Fiber evidence, vulnerability of physical evidence categories in light of Daubert criteria, § 29:54
Fingerprints (this index)

FORENSIC IDENTIFICATION
Generally, § 29:1 et seq., App. 29A
Accuracy, § 29:40
Bias in observation and interpretation, § 29:47
Bitemarks (this index)
Blood, vulnerability of physical evidence categories in light of Daubert criteria, § 29:51
Bullet Lead (this index)
Certainty of opinions, expression of, § 29:41
Class and individual characteristics, comparisons, § 29:23
Comparison generally, § 29:22-29:25
class and individual characteristics, § 29:23
features, § 29:24, 29:25

Bullet Lead (this index)
Certainty of opinions, expression of, § 29:41
Class and individual characteristics, comparisons, § 29:23
Comparison generally, § 29:22-29:25
class and individual characteristics, § 29:23
features, § 29:24, 29:25

Handwriting (this index)
Independent of features, comparisons, § 29:25
Individualization generally, § 29:26-29:28
explicable differences, § 29:28
identification processes vs. comparison processes, § 29:27
Induction and deduction, § 29:35
Intuition, substitution for defensible scientific fact, § 29:37

Index-27
FORENSIC IDENTIFICATION
—Cont’d
Legal skepticism concerning case-oriented research, § 29:38
Mineral evidence, vulnerability of physical evidence categories in light of Daubert criteria, § 29:57
Mismeasure of evidence, § 29:42
Narcotics, vulnerability of physical evidence categories in light of Daubert criteria, § 29:59
NRC Report, § 29:3-29:10
Objective vs. subjective tests, § 29:49
Parentage (this index)
PCAST Report, § 29:11-29:15
Personal bias in observation and interpretation, § 29:47
Physical evidence not property of one side or other, § 29:48
Physiological fluids, vulnerability of physical evidence categories in light of Daubert criteria, § 29:51
Precision, § 29:40
Professional practice generally, § 29:45-29:48
documentation of findings, § 29:45
personal bias in observation and interpretation, § 29:47
physical evidence not property of one side or other, § 29:48
statistical basis for evidence evaluation, § 29:46
Proficiency testing as means of ensuring quality in technical procedures, § 29:43, 29:44
Reliability, § 29:40
Same as that vs. born of that, § 29:30
Science and scientific method generally, § 29:32-29:38
failure of forensic sciences to consistently appreciate implications of scientific method, § 29:36
induction and deduction, § 29:35
intuition or experience, substitution for defensible scientific fact, § 29:37
legal skepticism concerning case-oriented research, § 29:38

FORENSIC IDENTIFICATION
—Cont’d
Scientific effects on criminal justice, § 29:21
Signal detection theory and proficiency testing, § 29:44
Soil evidence, vulnerability of physical evidence categories in light of Daubert criteria, § 29:57
Source, evaluation of generally, § 29:29-29:31
same as that vs. born of that, § 29:30
uniqueness, § 29:31
Standards of operation and performance generally, § 29:39-29:44
expression of certainty of opinions, § 29:41
mismeasure of evidence, § 29:42
proficiency testing as means of ensuring quality in technical procedures, § 29:43, 29:44
reliability, validity, precision and accuracy, § 29:40
signal detection theory and proficiency testing, § 29:44
Statistical basis for evidence evaluation, § 29:46
Subjective vs. objective tests, § 29:49
Subordination of scientific truth to legal truth, § 29:20
Toolmarks. Firearms and Toolmarks (this index)
Uniqueness, § 29:31
Validity, § 29:40
Voice Identification (this index)
Vulnerability of physical evidence categories in light of Daubert criteria
Generally, § 29:50 et seq.
arson and fire evidence, § 29:57
bitemarks, § 29:56
blood and other physiological fluids, § 29:51
fiber evidence, § 29:54
fingerprint evidence, § 29:56

HYPERTENSION
Tobacco, § 25:26

HYPERVIGILANCE
Battered child syndrome, § 13:9

HYPNOSIS
Generally, § 18:1-18:44
Accuracy of memory, effect on, § 18:29
Active participation, § 18:27
Admissibility of hypnotically refreshed testimony generally, § 18:3-18:6
admissible with safeguards, § 18:5
per se admissible, § 18:3
per se inadmissible, § 18:6
totality of circumstances, § 18:4
Agreement among scientists, areas of, § 18:21-18:32
Brain, future directions, § 18:39
Brain functioning, effect on, § 18:26

HYPNOSIS—Cont’d
Causal link between early trauma, dissociative pathology and high hypnotizability, § 18:37
Certainty, § 18:15, 18:29, 18:30
Clinical efficacy, § 18:16, 18:31, 18:32
Clinical outcome, future directions, § 18:42
Cognition, future directions, § 18:40
Control by subject of behavior, § 18:30
Defined, § 18:9
Design of research, § 18:20
Disagreement among scientists, areas of, § 18:33-18:37
Dissecting hypnotic response, § 18:41
Dissociation, future directions, § 18:43
Effectiveness of intervention, § 18:31
Faking of hypnosis, § 18:19
Future directions, § 18:38-18:44
Immune system, future directions, § 18:44
Legal issues, § 18:1-18:7
Measurement of hypnotic response, § 18:18
Medically disordered patients, effectiveness of intervention, § 18:31
Memory, § 18:15, 18:29, 18:30
Methodology of research, § 18:20
Negative side effects, risk of, § 18:32
Per se admissibility of hypnotically refreshed testimony, § 18:3
Per se inadmissibility of hypnotically refreshed testimony, § 18:6
Personality of subject, § 18:13, 18:22-18:24
Psychologically disordered patients, effectiveness of intervention, § 18:31
Reliability of hypnotic response, § 18:18
HYPNOSIS—Cont’d
Research foundation, § 18:11
Responsibility, §§ 18:15, 18:29, 18:30
Responsiveness depends on efforts and abilities of subject rather than person administering hypnosis, § 18:23
Risk of negative side effects, § 18:32
Scientific methods applied to research, §§ 18:17-18:20
Scientific questions, §§ 18:12-18:16
Simulation of hypnosis, § 18:19
Stability of hypnotic response, §§ 18:22, 18:33
Totality of circumstances, admissibility of hypnotically refreshed testimony, § 18:4
Trauma, future directions, § 18:43
Volitional capacity, transcending, § 18:28
When is person hypnotized, § 18:10

Scientific questions, § 8:16
Tests of insanity
generally, § 8:2-8:7
abolition of insanity defense, § 8:7
ALI test, § 8:5
Durham product test, § 8:4
guilty but mentally ill, § 8:6
M’Naghten test, § 8:3
Violence and psychoses, § 8:22

INSTRUCTIONS TO JURY
Eyewitness identifications, § 15:11

INTELLECTUAL PROPERTY
Economic and financial expertise, causation of damages, § 43:17
Patents (this index)

INTERNET SURVEYS
Survey research, § 7:26

INTERPERSONAL FUNCTIONING
Rape Trauma Syndrome (this index)

INTERROGATION TOOL
Polygraph tests, § 38:98

INTER-SCORER AGREEMENT
Polygraph tests, control question test (CQT), § 38:70

INTERVAL ESTIMATES
Statistical evidence, hypothesis tests, § 5:40

INTERVIEWS AND INTERVIEWERS
Children (this index)
INTERVIEWS AND INTERVIEWERS—Cont’d
Survey Research (this index)

INTUITION
Forensic identification, substitution for defensible scientific fact, § 29:37

IN VIVO STUDIES
Toxicology, § 22:4

JAIL
Drug testing, inmate surveys, § 40:25

JURY AND JURY TRIAL
Composition and selection, § 3:2-3:8
Decision process, § 3:9-3:14
Eyewitness identifications, instructions to jury, § 15:11
Layperson response to experts, § 3:15-3:25
Polygraph tests, control question test (CQT), § 38:43
Trial organization and procedures, effect of, § 3:26-3:34

JUSTIFICATION OR EXCUSE
Battered women syndrome, self-defense, § 12:14

JUVENILE DEVELOPMENT
Neuroimaging, § 20:15

KIDNEY CANCER
Tobacco, § 25:33

KLEPTOMANIA
Impulse Disorders (this index)

LACK OF VOLITIONAL CONTROL TEST
Sexual aggressors, § 10:6-10:8

LACTATION
Silicone implants, App. B § 28

LARYNGEAL CANCER
Tobacco, § 25:30

LATENCY PERIODS
Benzene, § 28:31

LAW ENFORCEMENT OFFICERS AND AGENCIES
Accident reconstruction, qualifications, § 41:5
Federal Rules of Evidence, § 1:27-1:29
Polygraph Tests (this index)

LEARNED HELPLESSNESS
Battered child syndrome, § 13:10
Battered women syndrome, self-defense, § 12:5

LEUKEMIA
Electromagnetic fields, residential exposures, § 24:23
Tobacco, § 25:37

LIE DETECTION
Neuroimaging, § 20:8, 20:16
Polygraph Tests (this index)

LIMITATION OF ACTIONS
Repressed memories, § 19:2

LINEAR ASSOCIATIONS
Drug testing, § 40:44
Statistical evidence, correlation and regression, § 5:46

LINGUISTIC PROCESSES
Children, § 16:36

LIVER CANCER
Tobacco, § 25:38

LOADED QUESTIONS
Eyewitness identifications, § 15:38

LOST PROFITS
Economic and financial expertise, § 43:49
Patents, § 43:40, 43:41, 43:44

LOST SALES
Economic and financial expertise, § 43:48, 43:49
Patents, § 43:43

LOW BIRTHWEIGHT
Tobacco, § 25:57

LOW CALORIE DIETS (LCD)
Diet drugs, § 27:12
LOW TEMPERATURE IGNITION
Fires, arsons and explosions, § 37:58

LUMBAR PUNCTURE AND CEREBROSPINAL FLUID ANALYSIS
Neuroimaging, § 20:58

LUNG CANCER
Asbestos, § 26:25, 26:29
Tobacco, § 25:29, 25:53

LYING AND TRUTH-TELLING
Children, § 16:38

LYMPHOPROLIFERATIVE DISORDERS
Benzene, § 28:23-28:26

MAGNETIC RESONANCE IMAGING (MRI)
Neuroimaging, § 20:25-20:49

MAGNETOENCEPHALOGRAPHY (MEG)
Neuroimaging, § 20:53

MAIL SURVEYS
Survey research, § 7:25

MAIN DIAGONAL MISSING DATA PATTERN
Scientific method, § 4:23

MARKET SHARE
Asbestos, causation, § 26:6

MATURATION
Scientific method, § 4:30, 4:36

MAZINDOL
Diet drugs, § 27:23

MEASUREMENT
Economic and Financial Expertise (this index)
Scientific Method (this index)

MEDICAL EXAMINER CASES
Drug testing, interpretation of results, § 40:54

MELTED STEEL
Fires, arsons and explosions, § 37:54

MEMORY
Children (this index)
Hypnosis (this index)
Neuroimaging, § 20:16
Repressed Memories (this index)

MENTAL RETARDATION
Generally, § 8:23-8:27
Agreement among scientists, areas of, § 8:26
Capital punishment, § 8:13
Disagreement among scientists, areas of, § 8:27
Scientific methods applied to research, § 8:25
Scientific questions, § 8:24

MESOTHELIOMA
Asbestos, § 26:24, 26:28

META-ANALYSIS
Gender stereotyping, § 17:17

MILITARY
Drug testing, worldwide surveys, § 40:24

MIMICKING
Voice identification, § 36:21

MINERAL EVIDENCE
Forensic identification, vulnerability of physical evidence categories in light of Daubert criteria, § 29:57

MINORS
Children (this index)

MITIGATION OF DAMAGES
Economic and financial expertise, § 43:32

MIXTURES
DNA, § 30:58

M’NAGHTEN
Insanity, test of, § 8:3

MONOPOLIES AND ANTITRUST
Generally, § 44:1-44:14
Benchmarks used to calculate class damages, § 43:34
Causation of damages, § 43:15
MONOPOLIES AND ANTITRUST—Cont’d
Class actions, § 43:33-43:37
Damages generally, § 43:33-43:37
benchmarks used to calculate class damages, § 43:34
calculation of class damages, § 43:34, 43:35
class actions, § 43:33-43:37
exclusion of evidence, § 44:7
indirect purchaser class actions, § 43:37
linking damages to violation, summary judgment, § 44:14
non-class actions, § 43:33
Daubert and economic science, § 44:5
Disaggregation, summary judgment, § 44:13
Exclusion of evidence generally, § 44:2, 44:4-44:8
damages, § 44:7
Daubert and economic science, § 44:5
monopolization, § 44:6
price-fixing, § 44:5
Geographic markets, measurement of, § 44:11
Indirect purchaser class actions, § 43:37
Linking damages to violation, § 44:14
Non-class actions, § 43:33
Novelty, § 44:3
Predatory pricing, summary judgment, § 44:10
Price-fixing, exclusion of evidence, § 44:5
Relevance of economic analysis, § 44:1-44:3
Summary judgment generally, § 44:2, 44:9-44:13
agreement, evidence of, § 44:12
disaggregation, § 44:13
geographic markets, measurement of, § 44:11
linking damages to violation, § 44:14

MONOPOLIES AND ANTITRUST—Cont’d
Summary judgment—Cont’d predatory pricing, § 44:10
Testability, § 44:3

MOTOR VEHICLES
Alcohol Testing (this index)
Drug Testing (this index)
Fires, arsons and explosions, stolen autos recovered burned, § 37:63
MULTICULTURAL CLINICAL ASSESSMENT
Projective techniques, § 11:15
MULTIPLE MYELOMA
Benzene, § 28:26
MULTIPLE PERSONALITY DISORDER
Generally, § 8:39-8:44
Agreement among scientists, areas of, § 8:43
Disagreement among scientists, areas of, § 8:44
Hypnosis, § 18:43
Scientific methods applied to research, § 8:42
Scientific questions, § 8:40, 8:41
MULTIPLE REGRESSION
Generally, § 6:1-6:24, App. 6A
Additional explanatory variables, choice of, § 6:7
Causation of changes in dependent variable by explanatory variables, § 6:16
Correlation of explanatory variables, § 6:17
Dependent variable, choice of, § 6:5
Expert witness, § 6:21
Explanatory variable that is relevant, choice of, § 6:6
Functional form of multiple regression model, choice of, § 6:8
Individual data points, sensitivity of results to, § 6:19
Individual error in regression model as independent, § 6:18
MULTIPLE REGRESSION—Cont’d
Interpretation of results
generally, § 6:10-6:20
appropriate level of statistical signiﬁcance, § 6:13
causation of changes in dependent variable by explanatory variables, § 6:16
correlation of explanatory variables, § 6:17
individual data points, sensitivity of results to, § 6:19
individual error in regression model as independent, § 6:18
measurement errors, § 6:20
one- or two-tailed statistical tests, § 6:14
practical and statistical signiﬁcance, § 6:11-6:14
robust results, § 6:15-6:20
Measurement errors, § 6:20
Model speciﬁcation
generally, § 6:2-6:9
additional explanatory variables, choice of, § 6:7
dependent variable, choice of, § 6:5
explanatory variable that is relevant, choice of, § 6:6
functional form of multiple regression model, choice of, § 6:8
method of analysis, choice of multiple regression as, § 6:9
speciﬁc question under investigation, § 6:3
One- or two-tailed statistical tests, § 6:14
Practical and statistical signiﬁcance, § 6:11-6:14
Presentation of statistical evidence
generally, § 6:22-6:24
database information and analytical procedures that will aid in resolving disputes over statistical studies, § 6:24
disagreements regarding data on which analysis is based, § 6:23
Robust results, § 6:15-6:20

NARCOTICS
Drugs and Narcotics (this index)

NATIONAL SECURITY
SCREENING
Polygraph tests, federal employees and job applicants, § 38:114

NEGATIVE CORPUS
Fires, arsons and explosions, § 37:65

NEUROGENTICS
Neuroimaging, § 20:63

NEUROIMAGING
Generally, § 20:1-20:63
Behavioral genetics, § 20:63
Behavior or emotional disorders, § 20:11
Chemical sensitivities, § 20:7
Civil cases, applications in, § 20:3-20:8
Classical neuroanatomical and neurophysiological techniques, § 20:56, 20:57
Clinical diagnostic and intervention methods, § 20:58-20:61
Competence, § 20:14
Computed axial tomography (CT), § 20:50
Corroboration of conditions relevant to mens rea or culpability, § 20:12
Criminal cases, application in, § 20:9-20:17
Death cases, § 20:17
Deep brain stimulation, § 20:60
Diminished cognitive capacity, § 20:10
Electroencephalography (EEG), § 20:53
Electrophysiology, § 20:57
Emerging technologies, § 20:62, 20:63
Implanted arrays, § 20:61
Insanity defense, § 20:13
Juvenile development, § 20:15
Lie detection, § 20:8, 20:16
Lumbar puncture and cerebrospinal fluid analysis, § 20:58

Index-37
NEUROIMAGING—Cont’d
Magnetic resonance imaging (MRI), § 20:25-20:49
Magnetoencephalography (MEG), § 20:53
Memory, § 20:16
Neurogenetics, § 20:63
Optical imaging techniques, § 20:54
Optogenetics, § 20:62
Possitron emission tomography (PET), § 20:51
Qualification of expert, § 20:2
Scientific issues, § 20:18 et seq.
Single proton emission computed tomography (SPECT), § 20:52
Techniques, § 20:24-20:63
Toxic encephalopathy, § 20:7
Transcranial magnetic stimulation, § 20:59

NEUROLOGICAL DISEASES
Silicone implants, App. B § 27

NEUROTOXICITY
Diet drugs, fenfluramine and dexfenfluramine, § 27:26

NOMINAL RATES METHOD
Economic and financial expertise, time value of money, § 43:85

NON-CANCEROUS CONDITIONS
Benzene, § 28:21

NON-CAUSATION ISSUES
Benzene, § 28:2

NONHUMAN DNA TESTING
Generally, § 30:59

NONRANDOMIZED STUDIES
Epidemiology, § 23:34 et seq.

NORMATIVE MATTERS
Scientific method, § 4:4
Taxonomy of expertise, App. A § 12

NOTIFICATION
Sexual Aggressors (this index)

OBJECTIVITY VS.
SUBJECTIVITY—Cont’d
Fingerprints, criteria, § 32:45

OBJECTIVITY VS.
SUBJECTIVITY
Firearms and toolmarks, criteria for identification, § 34:13
Forensic identification, § 29:49
Taxonomy of expertise, subjective translational systems, App. A § 10, 11

ONE- OR TWO-TAILED TESTS
Multiple regression, § 6:14
Statistical evidence, § 5:38

ONTOGENY
Sexual aggressors, § 10:55

OPEN-ENDED QUESTIONS
Survey research, § 7:18

OPTICAL IMAGING
TECHNIQUES
Neuroimaging, § 20:54

OPTOGENETICS
Neuroimaging, § 20:62

ORAL CANCER
Tobacco, § 25:30

ORLISTAT
Diet drugs, modification of digestive processes through diet drugs, § 27:26

OSTEOPOROSIS
Tobacco, § 25:43

OUTLIERS
Statistical evidence, correlation and regression, § 5:47

OUT-OF-COURT STATEMENTS
Children (this index)

PAINT
Forensic identification, § 29:55

PANCREATIC CANCER
Tobacco, § 25:34

PARENTAGE
Generally, § 31:1-31:19
Assumptions underlying W, § 31:13, 31:14
Criminal cases, § 31:7

Index-38
PARENTAGE—Cont’d
Disputed paternity vs. disputed identity
generally, § 31:15-31:18
computational differences, § 31:18
genetic differences, § 31:17
technical differences, § 31:16
Evaluation of significance of paternity match, § 31:12
Genetic markers used in testing, § 31:9
Genetic principles, § 31:10
Impact of tests, § 31:4
Legal issues, § 31:1-31:7
Movement toward admissibility, § 31:2
New tests, § 31:3
Paternity index, § 31:5
Principles underlying W, § 31:13, 31:14
Probability of paternity, § 31:5
Product rule, § 31:14
Selection of genetic tests, § 31:11
Uniform Parentage Act, § 31:6
Weight of tests, § 31:4

PARRICIDE
Battered child syndrome, § 13:6

PASSIVE ALCOHOL SENSOR (PAS)
Alcohol breath tests, § 39:45

PASSIVE SMOKING
Tobacco (this index)

PATENTS
Generally, § 43:38 et seq.
Causation of damages, § 43:17
Damages, generally, § 43:38 et seq.
Legal framework, § 43:39
Lost profits, § 43:40, 43:41, 43:44
Lost sales, § 43:43
Price erosion, § 43:42
Reasonable royalty, § 43:45

PATERNITY
Parentage (this index)

PATHOLOGICAL GAMBLING
Impulse Disorders (this index)

PCAST REPORT
Forensic identification, § 29:11-29:15

PEER PRESSURE AND PEER INTERACTION
Children, interviews and suggestibility, § 16:22

PEER REVIEW AND PUBLICATION
Accident reconstruction, § 41:11
Epidemiology, § 23:20
Federal Rules of Evidence, § 1:23
Repressed memories, § 19:24

PERSONALITY
Hypnosis, § 18:13, 18:22-18:24

PHALLOMETRIC STUDIES
Sexual aggressors, § 10:42

PHARMACOKINETICS
Alcohol testing, § 39:71
Drug testing, § 40:28

PHARMACOLOGY
Drug Testing (this index)

PHARMACOTHERAPY
Obesity, § 27:18 et seq.
Sexual aggressors, § 10:33

PHENLPROPANOLAMINE
Diet drugs, § 27:28

PHENTERMINE
Diet drugs, § 27:22

PHYSICS
Electromagnetic fields, § 24:25

PHYSIOLOGICAL FLUIDS
Blood (this index)
Forensic identification, vulnerability of physical evidence categories
in light of Daubert criteria, § 29:51

PIPE SMOKING
Health effects, § 25:50

PLANTING OF FINGERPRINTS
Generally, § 32:50
POLICE OFFICERS AND AGENCIES

Law Enforcement Officers and Agencies (this index)

POLYGRAPH TESTS

Generally, § 38:1-38:118

Accuracy

control question test (CQT), § 38:58, 38:60, 38:64, 38:91 et seq., 38:94

guilty knowledge test (GKT), § 38:110-38:112

Admissibility of evidence generally, § 38:2-38:8

corroborated and impeachment, use for, § 38:8

discretionary admission, § 38:4-38:6

Federal Rules of Evidence, Rule 403, § 38:5

per se exclusion, § 38:3

stipulation, admission by, § 38:7

Adversarial vs. friendly CQTs, § 38:77

Agreement among scientists, areas of, § 38:25-38:38, 38:65-38:118

Brain fingerprinting, guilty knowledge test (GKT), § 38:109

Case against polygraph tests, generally, § 38:45-38:118

Case for polygraph tests, generally, § 38:20-38:44

Computerization, effect on accuracy of control question test (CQT), § 38:60, 38:94

Confessions generally, § 38:9

control question test (CQT), § 38:82, 38:83

inducement, § 38:97

Consistency, control question test (CQT), § 38:41, 38:54

Constitutional guarantees, § 38:10

Control question test (CQT) generally, § 38:22, 38:47 et seq.

POLYGRAPH TESTS—Cont’d

Control question test (CQT)—Cont’d

accuracy, § 38:58, 38:60, 38:64, 38:91 et seq., 38:94

adversarial vs. friendly CQTs, § 38:77

application of test, § 38:36

branch of science relevant to evaluation of theory and application, § 38:52

computerization, effect on accuracy, § 38:60, 38:94

confessions, field studies, § 38:82, 38:83

consistency, § 38:41, 38:54

controlling standards, lack of, § 38:69

countermeasures, § 38:34, 38:59, 38:93

directed lie test (DLT), below distinguished psychologists, survey of, § 38:102

federal employees and job applicants, screening of, § 38:63

field studies, § 38:30, 38:81-38:86, 38:92

friendly polygrapher, § 38:42

genuine control question, § 38:74

implausibility of theory, § 38:72-38:78

inconsistency, selectivity and misrepresentations, § 38:41

independent criteria or guilt or innocence, field studies, § 38:84, 38:85

innocent subjects, control questions do not work for, § 38:73

interpretation of chart, subjectivity of, § 38:68

inter-scorer agreement, § 38:70

intractable problems inherent to evaluation of theory, § 38:78-38:86

juries, § 38:43

laboratory studies, § 38:26, 38:79, 38:91

law enforcement agencies, use by, § 38:61
INDEX

POLYGRAPH TESTS—Cont’d
Control question test (CQT)—Cont’d
methodologically flawed surveys of scientists, § 38:100
misconceptions about test, § 38:40-38:43
overreaction to control questions makes guilty subjects appear truthful, § 38:76
prevailing scientific opinion, § 38:62
protection of innocent subjects from failing test, § 38:75
reliability, § 38:54, 38:70, 38:71
scientific questions and methods, § 38:52 et seq.
scientific soundness, § 38:55
scientific standards necessary to provide meaningful appraisal of accuracy, § 38:57
scoring, § 38:49
skepticism of scientists, generally, § 38:99-38:106
society for psychophysiological research members, accurate survey of, § 38:101
standardization of question construction and administration, lack of, § 38:67
stimulation test, § 38:50
summary of scientific opinion, § 38:104
testability, § 38:56
test-retest agreement, § 38:71
textbooks on psychology, § 38:103
theory, § 38:48
validity, § 38:58, 38:60, 38:64
Corroboration, use for, § 38:8
Countermeasures
generally, § 38:33-38:35
control question test (CQT), § 38:34, 38:59, 38:93
guilty knowledge test (GKT), § 38:35
Report of National Academies of Science on the Scientific Evidence for the Polygraph, § 38:15

POLYGRAPH TESTS—Cont’d
Credible studies, identification of generally, § 38:87-38:90
criteria for credible validity study, § 38:88
example of non-credible validity study, § 38:90
plan for credible validity study, § 38:89
Directed lie test (DLT)
generally, § 38:23, 38:51, 38:95
field studies, § 38:31
implausibility of theory, § 38:78
laboratory studies, § 38:27
limited research, § 38:95
Disagreement among scientists, areas of, § 38:25-38:38, 38:65-38:114
Discretionary admission of evidence, § 38:4-38:6
ERP-GKT, § 38:112
Federal employees and job applicants generally, § 38:114, 38:115
control question test (CQT), § 38:63
national security screening, § 38:114
opinions of DOE national laboratory senior scientists regarding screening, § 38:115
Report of National Academies of Science on the Scientific Evidence for the Polygraph, security screening, § 38:16
Federal Rules of Evidence, Rule 403, § 38:5
Field studies
generally, § 38:29-38:32
control question test (CQT), § 38:30, 38:81-38:86, 38:92
directed lie test (DLT), § 38:31
guilty knowledge test (GKT), § 38:32
Friendly polygrapher, control question test (CQT), § 38:42
Future directions, § 38:39, 38:116 et seq.
General acceptance, § 38:38
Guilty knowledge test (GKT)
Generally, § 38:107-38:113
POLYGRAPH TESTS—Cont’d
Guilty knowledge test (GKT)
—Cont’d
application of test, § 38:37
brain fingerprinting, § 38:109
countermeasures, § 38:35
ERP-GKT, § 38:112
evidence supporting accuracy of
test, § 38:110-38:112
field studies, § 38:32
future directions, § 38:118
laboratory studies, § 38:28
measuring brainwaves, § 38:109
rationale behind test, § 38:108
scientific opinion, § 38:113
Impeachment, use for, § 38:8
Inducement of confessions, § 38:97
Instrumentation, § 38:46-38:51
Interpretation of chart, subjectivity
of, § 38:68
Interrogation tool, test as, § 38:98
Inter-scorer agreement, control ques-
tion test (CQT), § 38:70
Juries, control question test (CQT),
§ 38:43
Laboratory studies
generally, § 38:26-38:28
control question test (CQT),
§ 38:26, 38:79, 38:91
directed lie test (DLT), § 38:27
guilty knowledge test (GKT),
§ 38:28
Law enforcement agencies
generally, § 38:96-38:98
confessions, inducement of,
§ 38:97
control question test (CQT),
§ 38:61
interrogation tool, test as, § 38:98
Legal issues, § 38:1-38:19
Major developments, § 38:39
Misrepresentations, control question
test (CQT), § 38:41
National security screening, federal
employees and job applicants,
§ 38:114
Overreaction to control questions
makes guilty subjects appear
truthful, § 38:76

POLYGRAPH TESTS—Cont’d
Per se exclusion of evidence, § 38:3
Psychophysiological detection of
deception techniques
generally, § 38:21-38:24
counterquestion test (CQT),
§ 38:22
directed lie test (DLT), § 38:23
guilty knowledge tests (GKT),
§ 38:24
relevant-irrelevant test (RIT),
§ 38:21
Relevant scientific community,
§ 38:65, 38:66
Reliability, control question test
(CQT), § 38:54, 38:70, 38:71
Report of National Academies of
 Science on the Scientific Evi-
dence for the Polygraph
generally, § 38:11-38:18
accuracy of polygraphs, § 38:14
alternatives and enhancements to
 polygraph, § 38:17
basic science, § 38:13
countermeasures, § 38:15
executive summary, § 38:12-38:18
research recommendations,
§ 38:18
scientific evidence, § 38:13-38:15
security screening, § 38:16
Scientific questions and methods,
§ 38:52 et seq.
Scientific soundness, control question
test (CQT), § 38:55
Scoring, control question test (CQT),
§ 38:49
Selectivity, control question test
(CQT), § 38:41
Skepticism of scientists, generally,
§ 38:99-38:106
Standardization of question construc-
tion and administration, lack of,
§ 38:67
Stimulation test, control question test
(CQT), § 38:50
Stipulation, admission by, § 38:7
Testability, control question test
(CQT), § 38:56
POLYGRAPH TESTS—Cont’d
Test-retest agreement, control question test (CQT), § 38:71
Validity, control question test (CQT), § 38:58, 38:60, 38:64

POSSITRON EMISSION TOMOGRAPHY (PET)
Neuroimaging, § 20:51

POSTERIOR PROBABILITIES
Statistical evidence, § 5:42

POSTMORTEM TESTING
Drug testing, selection of specimens, § 40:30

POSTTRAUMATIC STRESS DISORDER
Generally, § 8:33-8:38
Agreement among scientists, areas of, § 8:37
Battered child syndrome, § 13:8
Disagreement among scientists, areas of, § 8:38
Rape Trauma Syndrome (this index)
Scientific methods applied to research, § 8:36
Scientific questions, § 8:34, 8:35

POWER LINES
Electromagnetic fields, regulation of siting, § 24:3

PRECISION
Drug testing, § 40:45
Forensic identification, § 29:40
Survey research, § 7:16

PREDATORY PRICING
Monopolies and antitrust, summary judgment, § 44:10

PREDICTIONS OF VIOLENCE—Cont’d
Constitutional law, § 9:6, 9:7
Defining what must be proven, § 9:2
Difficulty of prediction in field, § 9:14
Evidentiary standards of admissibility, § 9:3-9:5
Future directions, § 9:22
History and development of field, § 9:9-9:12
Individual recidivism, prediction of, § 9:15
Limitations inherent in research on violent risk assessment, § 9:12
Preferred methods of risk assessment, § 9:13
Qualifications, § 9:4
Racial disparities in incarceration, exacerbation of, § 9:16
Research approaches, § 9:11
Scientific questions, § 9:9-9:17
Types of risk factors, § 9:10

PREDICTIVE RELATIONSHIPS
Scientific method, § 4:24, 4:25

PREGNANCY
Silicone implants, App. B § 28

PREJUDICE
Eyewitness identifications, § 15:6
Fires, arsons and explosions, § 37:32
Rape trauma syndrome, § 14:9

PRELIMINARY TESTS
Drug testing, § 40:4, 40:12

PREMATURE BIRTH
Tobacco, § 25:56

PRESENT VALUE
Economic and financial expertise, § 43:21

PRESUMPTIONS
Fires, arsons and explosions, accidental cause, § 37:64

PRICE EROSION
Patents, § 43:42

Index-43
PRICE-FIXING
Monopolies and antitrust, exclusion of evidence, § 44:5

PRIMARY PULMONARY HYPERTENSION
Diet drugs, fenfluramine and dexfenfluramine, § 27:32

PRISONS
Drug testing, inmate surveys, § 40:25

PRIVACY
Sexual aggressors, community registration and notification, § 10:19

PROFESSIONAL AUTONOMY
Statistical evidence, § 5:4

PROFICIENCY TESTING
Bitemarks, § 35:13
DNA (this index)
Fingerprints, § 32:47
Forensic identification, ensuring quality in technical procedures, § 29:43, 29:44

Handwriting (this index)

PROJECTIVE TECHNIQUES
Generally, § 11:1-11:17
Accuracy of scores and interrater reliability, § 11:11
Agreement among scientists, areas of, § 11:9
Availability of data and manuscripts, § 11:16
Child sexual abuse, detection of, § 11:14
Diagnosis, § 11:13
Failure to critically assess clinical testimony based on projective techniques, § 11:4
Future directions, § 11:17
Impression management, § 11:10
Interrater reliability and accuracy of scores, § 11:11
Legal issues, § 11:1-11:4
Legal uses, § 11:3
Multicultural clinical assessment, § 11:15

PROJECTIVE TECHNIQUES—Cont’d
Overperception of psychopathology, § 11:12
Primer of projective techniques, § 11:6
Psychological uses, § 11:2
Scientific methods applied in research, § 11:8
Scientific questions, § 11:7

PROPS AND DOLLS
Children, § 16:26

PUBLICATION
Peer Review and Publication (this index)

PULMONARY DISEASE
Tobacco, § 25:31

PUNISHMENT
Sexual aggressors, registration and notification laws, § 10:18

P-VALUE
Statistical evidence, § 5:35

PYROMANIA
Impulse Disorders (this index)

QUALIFICATIONS
Benzene, § 28:12

QUALIFICATIONS OF EXPERTS
Accident reconstruction, § 41:3-41:7
Clinical medical testimony, exclusion of expert testimony, § 21:10
DNA, § 30:16
Economic and financial expertise, § 43:2, 43:13
Neuroimaging, § 20:2
Rape trauma syndrome, § 14:6
Silicone implants, App. B § 5

QUALITY CONTROL AND ASSURANCE
Drug testing, laboratory practices, § 40:51

QUALITY CONTROL AND ASSURANCE
Drug testing, laboratory practices, § 40:51
INDEX

QUASI-EXPERIMENTS
Scientific method, § 4:43

RACE
Eyewitness identifications, § 15:31

RANDOMIZED CONTROLLED EXPERIMENTS AND STUDIES
Epidemiology, § 23:33

One- or two-tailed hypothesis tests, § 5:38
INDEX

STATISTICAL EVIDENCE—Cont’d
Outliers, correlation and regression, § 5:47
Posterior probabilities, § 5:42
Presentation of data, generally, § 5:20 et seq.
Presentation of evidence, § 5:7
Probability and statistical inference, App. 5A
Procedures that enhance statistical evidence
generally, § 5:4-5:7
disclosure of data and analytical methods before trial, § 5:6
disclosure of other analyses, § 5:5
presentation of evidence, § 5:7
professional autonomy, maintenance of, § 5:4
Professional autonomy, maintenance of, § 5:4
P-value, § 5:35
Randomized controlled experiments, § 5:10
Regression. Correlation and regression, below
Reliability of individual measurements, § 5:17
Scatter diagrams, correlation and regression, § 5:44
Significance level, hypothesis tests, § 5:35, 5:36
Size of base of percentage, interpretation of rates or percentages, § 5:24
Slope of regression line, § 5:50
Standard errors, § 5:34, 5:54
Statistical methods
generally, § 5:52-5:55
social science example, § 5:53
standard errors, t-statistics and statistical significance, § 5:54
summary, § 5:55
Statistical significance, § 5:54
Surveys. Descriptive censuses and surveys, above
T-statistics, § 5:54
Types of studies, § 5:9
Unit of analysis, regression lines, § 5:51

STATISTICAL EVIDENCE—Cont’d
Validity of individual measurements, § 5:18
Variability, measure of, § 5:31
Varieties of statistical expertise, § 5:3
Weight of statistical studies, § 5:2

STATUTE OF LIMITATIONS
Repressed memories, § 19:2

STEEL
Fires, arsons and explosions, § 37:54

STIMULANTS
Alcohol testing, § 39:30

STIMULATION TEST
Polygraph tests, control question test (CQT), § 38:50

STIMULUS AND STORAGE
Eyewitness identifications, § 15:22

STIPULATIONS
Polygraph tests, § 38:7

STOMACH CANCER
Tobacco, § 25:35

STORAGE
Fingerprint records, § 32:26, 32:29, 32:41

STROKE
Tobacco, § 25:25

STRUCTURAL ENGINEERING
Generally, § 42:1 et seq.
Daubert factors, § 42:11-42:13
Qualifications, § 42:2-42:5
Relevance, § 42:6-42:9
Reliability, § 42:10-42:19
Robustness factors, § 42:14-42:17

SUBJECTIVITY
Objectivity vs. Subjectivity (this index)

SUBSTANCE SIMILARITY
Benzene, § 28:5

SUBUTRAMINE
Diet drugs, § 27:24

Index-53
SUGGESTIBILITY
Children (this index)

SUMMARIZATIONAL EXPERTISE
Taxonomy of Expertise (this index)

SUMMARY JUDGMENT
Monopolies and Antitrust (this index)

SURGERY
Sexual aggressors, § 10:33
Silicone implants, App. B § 30

SURVEY RESEARCH
Generally, § 7:1-7:34, App. 7A
Ambiguous or incomplete probing answers, clarification by probing, § 7:19
Bias of questions, § 7:16
Clarity of questions, § 7:16
Closed-ended questions, § 7:18
Community standards, § 7:4
Completeness of survey report, § 7:33
Consistency of probing to clarify ambiguous or incomplete answers, § 7:19
Context effects, avoidance or measurement of, § 7:20
Control group or question, use of, § 7:21
Court, use of surveys in, § 7:2, 7:3
Definitions, App. 7A
Design. Purpose and design, below
Disclosure and reporting, § 7:32-7:34

Drug Testing (this index)
Grouping of data, consistent and accurate classification, § 7:31
Guessing, steps to reduce, § 7:17
Identities of individual respondents, protection of, § 7:34
Incomplete or ambiguous answers, clarification by probing, § 7:19
Individual testimony, compared, § 7:5
In-person interviews, § 7:23
Internet surveys, § 7:26
Interviewers generally, § 7:27-7:29

SURVEY RESEARCH—Cont’d

Interviewers—Cont’d
administration of survey to minimize error and bias, § 7:29
knowledge of interviewers about survey and its sponsorship, § 7:28
selection and training, § 7:27
Knowledge of interviewers about survey and its sponsorship, § 7:28
Legal relevance, § 7:1-7:5
Mail surveys, § 7:25
Methods of data collection generally, § 7:22-7:26
in-person interviews, § 7:23
Internet surveys, § 7:26
mail surveys, § 7:25
telephone surveys, § 7:24
Open-ended questions, § 7:18
Order effects, avoidance or measurement of, § 7:20
Participation in design, administration and interpretation of survey controlled to ensure objectivity, § 7:7
Population definition and sampling, § 7:10-7:15
Precision of questions, § 7:16
Probing to clarify ambiguous or incomplete answers, § 7:19
Purpose and design generally, § 7:6-7:9
participation in design, administration and interpretation of survey controlled to ensure objectivity, § 7:7
relevant questions, addressing of, § 7:6
skill and experience of experts who designed, conducted and analyzed survey, § 7:8
skill and experience of experts who will testify about survey conducted by others, § 7:9
Questions in survey, generally, § 7:16-7:26
Recording of data, accuracy of, § 7:30
SURVEY RESEARCH—Cont’d
Relevant questions, addressing of,
§ 7:6
Reporting and disclosure, § 7:32-
7:34
Selection of interviewers, § 7:27
Skill and experience of experts who
designed, conducted and
analyzed survey, § 7:8
Skill and experience of experts who
will testify about survey
conducted by others, § 7:9
Statistical Evidence (this index)
Structure of survey, generally, § 7:16-
7:26
Telephone surveys, § 7:24
Time of disclosure of information
about survey methodology and
results, § 7:32
Training of interviewers, § 7:27
Use of surveys in court, § 7:2, 7:3
SYSTEM VARIABLE QUESTIONS
Eyewitness Identifications (this
index)
TALKER IDENTIFICATION
Voice identification, this index
TANDEM AND ION TRAP MASS
SPECTROMETRY
Drug testing, § 40:38
TAX DISCOUNT RATES
Economic and financial expertise,
time value of money, § 43:89
TAXONOMY OF EXPERTISE
—Cont’d
Inferences, expertise on, App. A § 13
Law, expertise on, App. A § 13
Non-expert testimony, App. A § 2
Normative expertise, App. A § 12
Secondary sources as basis, sum-
marizational expertise, App. A
§ 5
Subjective translational systems,
App. A § 11
Subjective vs. objective translational
systems, App. A § 10
Summarizational expertise
generally, App. A § 3-App. A § 8
direct experience as basis, App. A
§ 3
direct experience plus secondary
source as basis, App. A § 4
educator, expert as, App. A § 3
everyday vs. academic summariza-
tion expertise, App. A § 8
secondary sources as basis, App. A
§ 5
supplemental direct experience and
original research as basis,
App. A § 7
supplemental secondary sources as
basis, App. A § 6
Supplemental direct experience and
original research as basis, sum-
marizational expertise, App. A
§ 7
Supplemental secondary sources as
basis, summarizational
expertise, App. A § 6
Translational expertise
subjective translational systems,
App. A § 11
subjective vs. objective
translational systems, App. A
§ 10
TECHNICAL OR OTHER
SPECIALIZED KNOWLEDGE
Federal Rules of Evidence (this
index)
TELEPHONE SURVEYS
Survey research, § 7:24

Index-55
TESTABILITY
Federal Rules of Evidence (this index)
Monopolies and antitrust, § 44:3
Polygraph tests, control question test (CQT), § 38:56
Repressed memories, § 19:23

THIN-LAYER CHROMATOGRAPHY
Drug testing, § 40:34

THIRD WAVE TOBACCO LITIGATION
Tobacco (this index)

TIME AND DATE
Alcohol testing, § 39:7
Economic and Financial Expertise (this index)
Fingerprints, deposition of, § 32:24

TITLE VII
Gender stereotyping, because of . . . sex, § 17:4-17:6
Sexual orientation, § 17:6
Transgender individuals, § 17:5

TOBACCO
Generally, § 25:1-25:66
Abortion, inducement by tobacco, § 25:45
Active cigarette smoking, health effects of, generally, § 25:23-25:53
Addiction to nicotine, § 25:9, 25:22
Admissibility of expert evidence generally, § 25:8-25:12
addictive nature of nicotine, § 25:9
causation of specific diseases, § 25:8
environmental tobacco smoke evidence, § 25:11
exclusion of defense experts, § 25:12
second cause, tobacco as, § 25:10
Animal laboratory experiments, § 25:17
Aortic aneurysm, § 25:28
Asbestos exposure, § 26:12

TOBACCO—Cont’d
Atherosclerotic peripheral vascular disease, § 25:27
Autopsy studies, § 25:19
Bladder cancer, § 25:33
Breast cancer, § 25:32
Cardiovascular disease, § 25:23
Causation of specific diseases, § 25:8
Cervical cancer, § 25:36
Cessation of active smoking, benefits of, § 25:49
Children and minors
development of children, § 25:59
illnesses during childhood, § 25:59
low birthweight, § 25:57
passive smoking, health effects of, § 25:55-25:59
premature birth and perinatal mortality, § 25:56
Cigar smoking, health effects of, § 25:50
Class actions, third wave tobacco litigation, § 25:5
Clinical experiments, § 25:18
Coronary heart disease, § 25:24
Development of children, § 25:59
Disagreement among scientists, areas of, § 25:62
Endometrial cancer, § 25:39
Environmental tobacco smoke evidence, § 25:11
E.P.A. regulation of environmental tobacco smoke, § 25:7
Epidemiological studies, § 25:20
Esophageal cancer, § 25:30
Exclusion of defense experts, § 25:12
FDA litigation, § 25:6
Fertility, § 25:44
Future directions, § 25:63
Health effects
active cigarette smoking, generally, § 25:23 et seq.
passive smoking, generally, § 25:51 et seq.
pipe and cigar smoking, § 25:50
smokeless tobacco, § 25:60
TOBACCO—Cont’d
Heart disease, § 25:52
History of tobacco litigation, § 25:2
Hypertension, § 25:26
Kidney cancer, § 25:33
Large bowel cancer, § 25:39
Laryngeal cancer, § 25:30
Leukemia, § 25:37
Liver cancer, § 25:38
Low birthweight, § 25:57
Lung cancer, § 25:29, 25:53
Medical cost reimbursement, third wave tobacco litigation, § 25:3-25:7
Minors. Children and minors, above
Oral cancer, § 25:30
Osteoporosis, § 25:43
Pancreatic cancer, § 25:34
Passive smoking, health effects of, generally, § 25:51 et seq.
Perinatal mortality, § 25:56
Pipe smoking, health effects of, § 25:50
Premature birth, § 25:56
Pulmonary disease, § 25:31
Respiratory diseases, § 25:29-25:31
Scientific questions, § 25:14, 25:15
Second cause, tobacco as, § 25:10
Smoke-free environment as control tool, § 25:61
Smokeless tobacco, health effects of, § 25:60
Stomach cancer, § 25:35
Stroke, § 25:25
Third wave tobacco litigation generally, § 25:3-25:7
class actions, § 25:5
E.P.A. regulation of environmental tobacco smoke, § 25:7
FDA litigation, § 25:6
groups, actions by, § 25:5
individual actions, § 25:4
medical cost reimbursement, § 25:3-25:7
Ulcers, § 25:42

TOLLING
Repressed memories, statute of limitations, § 19:2

TOOLMARKS
Firearms and Toolmarks (this index)

TOTALITY OF CIRCUMSTANCES
Hypnosis, admissibility of hypnotically refreshed testimony, § 18:4

TOTALITY OF DEFECTS
Epidemiology, § 23:12

TOTAL OFFSET
Economic and financial expertise, time value of money, § 43:83

TOXIC ENCEPHALOPATHY
Neuroimaging, § 20:7

TOXICOLOGY
Animal studies, § 22:5
Assessment of risk, § 22:29
Benzene, § 28:18, 28:19
Carcinogens, § 22:28
Caustion, § 22:7
Causation analysis, § 22:31
Causation and dose-response relationships, § 22:24
Daubert factors, § 22:12
Drug Testing (this index)
Emerging issues, § 22:32
Epidemiology vs. toxicology, § 22:2
Exclusion of evidence generally, § 22:8-22:14
Daubert factors, § 22:12
Federal Rules of Evidence, Rule 403, § 22:14
Federal Rules of Evidence, Rule 703, § 22:11
general acceptance, § 22:10
qualifications, lack of, § 22:9
sufficiency, § 22:15
Exposures to chemicals, § 22:19
External validity generally, § 22:3-22:5
animal studies, § 22:5

Index-57
INDEX

VISUALIZATION
Children, interviews and suggestibility, § 16:25

VITREOUS HUMOR
Alcohol testing distribution of alcohol, § 39:64

VOICE IDENTIFICATION
Generally, § 36:1-36:26, App. 36A
Acoustic characteristics, § 36:7
Agreement among scientists, areas of, § 36:18-36:24
Basic concepts, § 36:4-36:8
Decision categories, forensic application vs. scientific research, § 36:14
Decision objectives, § 36:6
Definitions, App. 36A
Disagreement among scientists, areas of, § 36:25
Disguises, § 36:21
Display and instrumentation, § 36:5
Earwitness testimony, § 36:23
Forensic application vs. scientific research generally, § 36:13-36:17
decision categories, § 36:14
quality of speech samples and authenticity of recordings, § 36:16
selection of subjects for identification task, § 36:17
visual vs. visual-aural identification, § 36:15
Future directions, § 36:26
Instrumentation and display, § 36:5
Legal issues, § 36:1-36:3
Mimicking, § 36:21
Model of voice identification variables, § 36:8
Objectives of decision, § 36:6
Phonetic context and duration, § 36:20
Physical state of subject, § 36:22
Psychological state of subject, § 36:22
Quality of speech samples and authenticity of recordings, forensic application vs. scientific

VOICE IDENTIFICATION—Cont’d research, § 36:16
Quantity of sound studied, § 36:11
Recording and signal transmission, § 36:19
Sampling of voices, § 36:12
Scientific methods applied to research, § 36:9-36:17
Scientific questions, § 36:4-36:8
Selection of subjects for identification task, forensic application vs. scientific research, § 36:17
Signal transmission and recording, § 36:19
Terminology, § 36:4-36:8
Variations in methods, § 36:10
Visual vs. visual-aural identification, forensic application vs. scientific research, § 36:15
Vulnerability of physical evidence categories in light of Daubert criteria, § 29:60
