KeyCite® at a Glance

KeyCite is the powerful citation research service available exclusively on Westlaw. You can use KeyCite to view the history of a case, statute, administrative decision, or regulation to help determine whether it is good law and to retrieve citing references.

KeyCite information is available for every case in West's® National Reporter System®; more than 1 million unpublished cases; federal and state statutes and regulations; selected federal and state administrative decisions; patents issued by the U.S. Patent and Trademark Office; American Law Reports (ALR®) annotations; articles from hundreds of law reviews; and thousands of briefs.

**KeyCite Status Flags**

- A red flag warns that the case or administrative decision is no longer good law for at least one of the points of law it contains or that the statute or regulation has been amended by a recent session law or rule, repealed, superseded, or held unconstitutional or preempted in whole or in part.
- A yellow flag warns that the case or administrative decision has some negative history but has not been reversed or overruled; that the statute has been renumbered or transferred by a recent session law; that an uncodified session law or proposed legislation affecting the statute is available (statutes merely referenced, i.e., mentioned, are not marked with a yellow flag); that a notice or proposed rule affecting the regulation is available; that the statute or regulation was limited on constitutional or preemption grounds or its validity was otherwise called into doubt; or that a prior version of the statute or regulation received negative treatment from a court.
- A blue H indicates that the case or administrative decision has some history.
- A green C indicates that the case or administrative decision has citing references but no direct history or negative citing references or that the statute or regulation has citing references but no applicable history.
