Performing a Silent Installation

It is recommended that an experienced information technology specialist execute a silent installation. If Publisher is currently installed, the program is uninstalled automatically when you install Publisher 6.3. You must manually uninstall all previous versions of Publisher. The silent installation uses Publisher installer. Below is an example silent installation:

`PublisherLF-6.3.exe /S /V"/qn LICENSE_CODE=CZZQ3-3JFHG-XXXXX"`

Where `PublisherLF6.3.exe` is the Publisher installer for a specific version of Publisher (your version may vary); `/S` is the parameter instructing the installation to run silently; and `/V"/qn LICENSE_CODE=CZZQ3-3JFHG-XXXXX"` is the parameter instructing the installer to use the provided license code CZZQ3-3JFHG-XXXX.

The following parameters are also available:

- `INSTALLDIR`
- `USERNAME`
- `COMPANYNAME`

As explained below, you must type backslashes and quotation marks for the parameters include spaces.

For example,

`PublisherLF-6.3.exe /S /V"/qn LICENSE_CODE=CZZQ3-3JFHG-XXXXX INSTALLDIR=C:\TEST USERNAME=QA-TEST COMPANY NAME="THOMSON REUTERS""`

Where `PublisherLF6.3.exe` is the West Publisher installer for a specific version of West Publisher (your version may vary); `/S` is the parameter instructing the installation to run silently; `/V"/qn LICENSE_CODE=CZZQ3-3JFHG-XXXXX"` is the parameter instructing the installer to use the provided license code CZZQ3-3JFHG-XXXX; `C:\TEST` is the installation directory; `QA-TEST` is the username; and `THOMSON REUTERS` is the company name.

Note: The previous example shows backslashes and quotations marks around THOMSON REUTERS because the name includes spaces. If you use spaces in the values for the COMPANYNAME, USERNAME, or INSTALLDIR parameters, you must type backslashes and quotation marks around those values.

`MsiExec.exe /x {1A78893A-7992-4532-8106-2079DA9777DF} /qb`
