The following information security measures are designed to provide guidance to you in relation to preventing unauthorized access to consumer information that you receive through the West Services. The information provided below is considered the minimum baseline for information security. It is your responsibility to implement appropriate controls to protect the privacy and information of consumers. Capitalized terms used herein have the meaning given in the Glossary attached hereto.

1. Implement Strong Access Control Measures

   1.1 Each User should have a separate, unique user ID logon password. PASSWORD SHARING IS STRICTLY PROHIBITED

   1.2 Ensure that user IDs are not shared, either internally or externally. PASSWORD SHARING IS STRICTLY PROHIBITED AND IS GROUNDS FOR SUSPENSION OR TERMINATION OF YOUR ACCESS.

   1.3 Ensure that no Peer-to-Peer file sharing is enabled on those users’ profiles.

   1.4 Keep user passwords Confidential.

   1.5 Develop strong passwords that are:

   - Not easily guessable (i.e. password shout NOT contain your name or company name, repeating numbers and letters or consecutive numbers and letters)

   - Contain a minimum of seven (7) alpha/numeric characters for standard user accounts

   1.6 Implement password protected screen savers with a maximum fifteen (15) minute timeout to protect unattended workstations.

   1.7 Restrict the number of key personnel who have access to consumer information.

   1.8 Ensure that personnel who are authorized access to consumer information have a business need to access such information and understand these requirements to access such information are only for the permissible purposes listed in the Permissible Purpose Information section of your membership application.
1.9 Ensure that you and your employees do not access your own consumer information or those reports of any family member(s) or friend(s) unless it is in connection with a valid business transaction or for another permissible purpose.

1.10 Implement a process to terminate access rights immediately for users that are terminated or when they have a change in their job tasks and no longer require access to consumer information.

1.11 After normal business hours, turn off and lock all devices or systems used to obtain consumer information.

1.12 Implement physical security controls to prevent unauthorized entry to your facility and access to systems used to obtain consumer information.

2. Maintain a Vulnerability Management Program

2.1 Keep operating system(s), Firewalls, Routers, servers, personal computers (laptop and desktop) and all other systems current with appropriate system patches and updates.

2.3 Implement and follow current best security practices for Computer Virus detection scanning services and procedures:
   - Use, implement and maintain a current, commercially available Computer Virus detection/scanning product on all computers, systems and networks.
   - If you suspect an actual or potential virus, immediately cease accessing the system and do not resume the inquiry process until the virus has been eliminated.
   - On a weekly basis at a minimum, keep anti-virus software up-to-date by vigilantly checking or configuring auto updates and installing new virus definition files.

2.4 Implement and follow current best security practices for computer anti-Spyware scanning services and procedures:

If your company’s computers have unfiltered or unblocked access to the Internet (which prevents access to some known problematic sites), then it is recommended that anti-Spyware scans be completed more frequently than weekly.
