THE NEXT EVOLUTION IN CAMPUS RESEARCH

Intuitive design, intelligent tools and cutting-edge search technology means smarter and faster research for students, faculty members, and library staff.

**WestlawNext Campus Research**
WestlawNext provides intelligent tools to let researchers work smarter and faster – with total confidence that they have the legal, news, and business information that they need.

**Research Tools That Deliver Efficiency**
From the all-in-one search box and customizable interface to the search filters and visual indicators, WestlawNext brings innovative tools right to your students. So they can do research in the way that feels the most natural and intuitive to them.

**The World’s Most Advanced Legal Search Engine**
WestSearch, the world’s most advanced legal search engine, incorporates 125 years of West’s proprietary analysis of the law with cutting-edge search technology to deliver the best results, faster – including relevant documents that use different phrasing than the original query. Results are ranked by relevance and sorted by content type, so researchers get what they need in minutes, not hours.

1. **Easier searching** enables users to enter search words however they wish, then choose a jurisdiction. The system automatically recognizes the format of the query.
2. **A streamlined look and feel** makes it easy to view content sources to find what is needed quickly from favorite sources – or any others.
3. **Content tabs** allow users to browse for information easily and intuitively.
4. **Helpful resources** such as a comprehensive Campus Help Guide make research easier for your students – and for everyone else at your school.

**KNOW THE DIFFERENCE**
Only on WestlawNext®:

- **Trusted expertise** and commitment to accuracy mean users can build the strongest argument with total confidence.
- **WestSearch®** incorporates 125 years of West’s proprietary analysis of the law to deliver the best results faster.
WestlawNext Campus Research helps users quickly find the most relevant information

Every search with WestSearch automatically leverages West’s respected editorial analysis, Key Number taxonomy, and state-of-the-art search technologies to produce more relevant, thorough results.

- Each search is all-inclusive for the user’s jurisdiction or topical area; there’s no need to pick and choose databases
- The most relevant documents appear on top of the list, ensuring users don’t miss important information
- Results can be filtered in seconds by simply filling in a blank field or checking a box

- The most relevant documents can be viewed either in a combined “Overview” list or sorted by content types
- Related on-point information can be found through the Related Documents list; it’s the “best of the rest” from select primary and secondary sources – and another way WestlawNext brings relevant information to users without exhaustive searching

However you want to search, we meet you there.

1 View top results all together or sorted by content type.
2 Filter results by key word, jurisdiction, topic, date, law firm, judge, and more.
3 See Related Documents for the most significant additional content from across WestlawNext, such as an ALR® article or a U.S. Supreme Court brief.
